Lillevilla Cabins

Lillevilla 70

The Lillevilla 70 was our best selling cabin of 2002.

The reason could be for the multitude of uses that the Lillevilla 70 can be used for, for example it has been used as offices, guest rooms and hot tub houses to name but a few. Lillevilla 70 offers great value for money for the space they provide whilst remaining very pleasing to the eye.

Roof shown tuf tiles.
Tuf tiles available as
separate order.

Mr P Smith from Surrey wrote to us after purchasing a 70 model.

"The cabin itself is excellent as a craftsman myself I really appreciate the workmanship, the quality of the wood is exemplary and it looks magnificent it is the envy of my neighbours and visitors!"
