## The Company

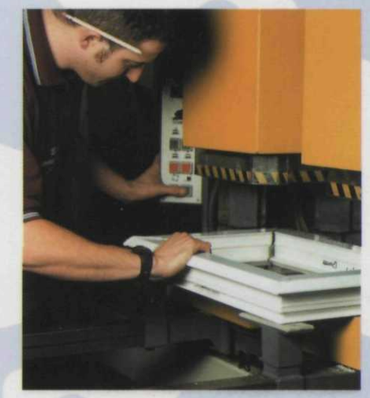

After completing a training course at the famous Deceuninck factory in Belgium, Ace Frames was established in June 1997. Starting in the trade in 1983 managing director Clive Cartwright and factory manager Adrian Filby now successfully supply trade, retail and domestic demands to exceptional quality.

**Plus Plan** profile is made from impact modified unplasticated rigid PVC extrusion compound having high impact strength, corresponding to BS 7413, 1991. All our **Plus Plan** profiles are fully guaranteed. This alongside a professional fitting team and after sales service ensures our clients have peace of mind all the time.
