For/Against Objections

Our system shows that the area covered by the planning permission may be an historic landfill.

No information (such as a desk study or site investigation) was presented with the application to demonstrate that, after remediation, the site could not be determined as contaminated land under Part IIA of the Environmental Protection Act 1990, as per paragraph 178 of the NPPF (2018).

I therefore must OBJECT to this application until such a time as sufficient information is received.
