Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

To plant six individual trees and 100sqm of ONG (Other Neutral Grassland)

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The site is classified as modified grassland in poor condition. We have chosen rubber matting, which allows the grass to grow through around the equipment, so that it doesn't fill the whole area used and allows more biodiversity than typically used rubber wet pour.

The site does not contain any irreplaceable habitats.

We are replacing the modified grassland BNG loss with the same distinctiveness or better habitat.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☐ Yes
☒ No

4.6 How will you achieve the target net gain percentage?

☐ On-site
☒ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

☐ Yes
☒ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

N/A

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

0.12

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

There is not space in the playground area to provide the units required, however, the playground is situated on a wider field, which is where the units will be placed and so the units will be gained in close proximity to the playground area.

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).
