The written scheme of archaeological investigation submitted meets the requirements of this office in respect of Condition 12 of permission H07-0989-21. We can also take this application as the intention to start the archaeological work, required by Condition 13. Therefore we can recommend that the local planning authority may now discharge Condition 12 and 13.

However, Condition 14 should not be discharged as the archaeological work has yet to take place, and consequently no final report has been produced any no archive deposited at the museum.

We look forward to the archaeological work taking place on site and receiving a copy of the final report in due course.
