Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

The site delivers Biodiversity Net Gain by creating areas of Other Neutral Grassland, enhancing existing grassland, and planting native species-rich hedgerow to meet habitat area and quality targets.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

Impacts to habitats are minimised by retaining as much existing biodiverse habitat as possible within the site layout and design.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☐ Yes
☒ No

4.6 How will you achieve the target net gain percentage?

☒ On-site
☐ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

☐ Yes
☒ No

4.8 If yes, tell us about the significant on-site enhancements
Include the appropriate planning condition or how you've secured the habitat.
