# TOWN AND COUNTRY PLANNING ACT 1990
# PRIOR NOTIFICATION

**Reference:** H07-0583-22 **Date of Decision:** 3rd August 2022

**Applicant:** Mr N Shortland
Windy Nook
West Drove South
Gedney Hill
Spalding
PE12 0PN

**Location:** West Drove South Gedney Hill Spalding

**Description:** Change of use of barn to residential dwelling - previously approved under H07-0244-20

## South Holland District Council hereby give notice that permission has been GRANTED (or equivalent) subject to the following condition(s):

1 The development shall be completed within a period of 3 years from the date of this decision.

Reason: As required by the Town and Country Planning (General Permitted Development) Order 2015 (or any Order or Statutory Instrument revoking and re-enacting that Order).

2 The development hereby permitted shall be carried out in accordance with the following approved plans:
3591-19 01
3591-19 04
3591-19 06
Planning Statement (Ref. 3591-19) dated June 2022
Geo-Environmental Desk Study by Goldfinch Environmental Ltd (Report Ref. 0708/1) dated July 2020

Reason: For the avoidance of doubt and in the interests of proper planning.

3 Prior to practical completion of the development the approval of the Local Planning Authority is required to a scheme of landscaping and tree planting for the site indicating, inter alia, the number, species, heights on planting and positions of all the trees, together with details of post-planting maintenance. Such scheme as is approved by the Local Planning Authority shall be carried out and completed in its entirety no later than the first planting season following practical completion of the development. All trees, shrubs and bushes shall be maintained by the owner or owners of the land on which they are situated for the period of five years beginning with the date of completion of the scheme and during that period all losses shall be made good as and when necessary.

Reason: To ensure that the development is adequately landscaped, in the interests of its visual amenity and that of the area in which it is set.
This condition is imposed in accordance with Class Q of The Town & Country Planning (General Permitted Development) Order 2015.

4 The rooflights on the South/East elevation shall be obscure glazed and non-opening, unless no part is installed below 1.7 metres above the floor of the room in which the window is installed, and shall be retained as such thereafter.
Reason: To protect the privacy of neighbouring residents.
This condition is imposed in accordance with Class Q of The Town & Country Planning (General Permitted Development) Order 2015.

5 In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority (LPA). An investigation and risk assessment must be undertaken in accordance with details to be agreed with the LPA. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by the LPA. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved by the LPA.

No deviation shall be made from this scheme without the express written agreement of the LPA. If during redevelopment contamination not previously considered is identified, then the LPA shall be notified immediately and no further work shall be carried out until a method statement detailing a scheme for dealing with the suspected contamination has been submitted to and agreed in writing by the LPA.

Reason: To address any pollution to ensure a satisfactory development.
This condition is imposed in accordance with Class Q of The Town & Country Planning (General Permitted Development) Order 2015.

6 The development hereby permitted shall incorporate the following flood risk measures:
- Finished floor levels shall be 300mm above existing ground level;
- Flood resilient construction shall be incorporated within the development up to 300mm above finished floor level;
The mitigation measures shall be fully implemented prior to occupation.

Notes:

DC_FINAL_DECISION - ODB:14

1. The applicant is advised to refer to the following document for information on flood resilience and resistance techniques that could be incorporated into the development: "Improving Flood Performance of New Buildings - Flood Resilient Construction" (Department for Communities and Local Government, 2007);
2. Future occupants are advised to sign up to the Environment Agency's free Floodline Warnings Direct Service.

Reason: To ensure that the development does not increase the risk of flooding or be at risk of flooding.
This condition is imposed in accordance with Class Q of The Town & Country Planning (General Permitted Development) Order 2015.

7 Before work is commenced on the building, full details of the proposed means of foul and surface water disposal to separate systems shall be submitted to and approved in writing by the Local Planning Authority and the details so approved shall be implemented in full before there are any flows into the receiving systems.

Reason: To ensure that the site is adequately drained, to avoid pollution, and to prevent increased risk of flooding.
This condition is imposed in accordance with Class Q of The Town & Country Planning (General Permitted Development) Order 2015.

8 Prior to practical completion full details of ecological biodiversity measures to be installed in conjunction with the development shall be submitted to and approved in writing by the Local Planning Authority. The measures shall thereafter be constructed/installed in accordance with the details so approved prior to the development being brought into use and shall thereafter be retained.

Note: Development can incorporate a number of simple, low-cost measures to deliver biodiversity benefits and enhance priority habitats and species, such as, the use of bat and barn owl roost boxes and integrating nesting opportunities into buildings. The use of swift bricks on new developments would help minimise the decline in swifts, a priority species.

Reason: To ensure that the development is able to deliver a net gain in biodiversity.
This Condition is imposed in accordance with national guidance contained in the National Planning Policy Framework, 2021.

9 The water consumption of the dwelling hereby permitted should not exceed the requirement of 110 litres per person per day (as set out as the optional requirement in Part G of the Building Regulations 2010 and the South East Lincolnshire Local Plan, 2019). The person carrying out the work must inform the Building Control Body that this duty applies. A notice confirming the requirement for the water consumption has been met shall be submitted to the Building Control Body and Local Planning Authority, no later than five days after the completion of the dwelling.

Reason: To protect the quality and quantity of water resources available to the district.
This Condition is imposed in accordance with Section 14 of the National Planning Policy Framework, 2021.

Notes:

Please contact the Lincolnshire County Council Streetworks and Permitting Team on 01522 782070 to discuss any proposed statutory utility connections and any other works which will be required within the public highway in association with the development permitted under this Consent. This will enable Lincolnshire County Council to assist in the coordination and timings of these works.

The applicant is reminded that it is an offence under the wildlife and Countryside Act, 1981 (as amended) to kill, injure, or take (handle) any protected species occupying a place of shelter or protection and also to take, damage or destroy the nest of any wild bird while that nest is in use or being built. If evidence of bats is found before or whilst the work is carried out you are advised to contact Natural England at their Lincoln office (telephone 03000 603900).

Phil Norman
Planning Manager
South Holland District Council

BUILDING REGULATIONS:
This decision refers only to planning permission as granted under the Town and Country Planning Act 1990. The works that you are proposing may also require Building Regulations and this planning permission does not give authority under Building Regulations to commence work. Please contact the Building Control section for further information on 01775 764557 or bcadmin@sholland.gov.uk

# RIGHTS OF APPEAL

## Appeals to the Secretary of State

If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or grant consent subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990 or Section 20 of the Planning (Listed Building and Conservation Areas) Act 1990.

## Timescales for appealing

The deadlines for appeals are calculated from the **date of decision** and are as follows for the types of applications below:

| 12 Weeks | 6 Months | 8 Weeks |
|---|---|---|
| Householder Applications | Planning Permission | Consent to Display Adverts |
| Minor Commercial Development | Listed Building Consent | |
| Agricultural Determinations | Other Prior Approval Applications | |
| Householder Prior Approval Applications | | |

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planning inspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

## Enforcement Notices

If an enforcement notice was served prior to the planning application being determined then the deadline for appealing is 28 days from the date of the **planning refusal**.

If an enforcement notice is served after the planning application is determined then the deadline for appealing is 28 days from the date of the **enforcement notice** OR **the timescales stated above for each application type** from the date of the planning refusal - whichever is sooner.

Appeals can be made online at: https://www.gov.uk/planning-inspectorate. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the

Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under the order.

## Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grant it subject to conditions the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of the Part VI of the Town and Country Planning Act 1990 or Section 32 of the Planning (Listed Building and Conservation Areas) Act 1990.

## Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him.

These circumstances are set out in Section 114 and related provisions of the Town and Country Planning Act 1990 and Section 27 of the Planning (Listed Building and Conservation Areas) Act 1990.
