Hi,

Can you please redact the email below and upload it to H07-0738-20 as a public document (probably code 6SUP?). I would like to add to the permission as a determined plan. The redacted version should replace the existing ID 37.

Kind regards,

Joan Isus | Senior Planning Officer | **South Holland District Council**

This message originated from outside your organization

Hi Joan ,

Just looking at the initial application and the response from this we were only asked to confirm the colour not the type. I attach a photo of this letter.

We have stated on our application that we wish for this to be a light cream. To be more specific we are wanting antique white looking at the samples we have seen in line with this.

We have had a number of companies look at this and the rendering type appear differing between all the ones we have reviewed so far. The one we would like to use is a Weber Monocouche (cement/limestone) with a light stipple effect (not smooth)

Hopefully this clarifies sufficiently let me know if you require anything further.

Kind Regards

Hi [Redacted],

I was drafting the officer's report about the planning assessment of proposed render. I cannot see that you had mentioned in the initial documents and correspondence the appearance of such wall treatment

Do you know the type of render and colour? If you know the manufacturer and model would be even better (e.g, K render Silicone TC 05 in Ash White colour). In fact, this is the essential information to proceed with your application.

Kind regards,
