This office has commented on previous proposals for this site (H07-0179-18). These were approved subject to conditions 13, 14, and 15 to require the archaeological monitoring of all groundworks.

It is recommend that should a new separate outline planning permission be forthcoming that this also have the same archaeological conditions. Initially I envisage that this would require the all groundworks of the proposed development to be monitored by an archaeologist, with the ability to stop and fully record archaeological features.
