Subject: H07-0967-25

Please file **ON PUBLIC BIT OF H07-0967-25**.

Thank you.

Works agreed on site with Applicant 7th November 2025. Confirmed by Applicant by e-mail 25th November 2025.

Amended Description of Application No. H07-0967-25.

1. **The new vertical compensatory growth throughout the crown to be cut back, to keep the crown 'open' and prevent potential rubbing branches in the future. Two such sprigs of new growth which grow directly from the trunk to remove.**
2. **Some fresh extension growth from the recently cut branches was present. The extension growth was noted of small diameter, the longest approximately 1.5-1.75 metres maximum.**

The fresh extension growth to be trimmed back to the original cuts left in 2022 (or to sound wood if any rot is present).

(When the original cuts were made following the last consent, the majority were taken back to **existing growth points**. In most cases these can be retained or **very slightly reduced** and just the compensatory growth removed.)

Yours sincerely,
Diane.
