CASE OFFICER ASSESSMENT

PROPOSAL

This is a householder application seeking permission for a single storey flat roof extension to the rear of the dwelling measuring between 4.1 and 6 metres (depth) x 8.3 metres (width), standing at 2.6 metres in height. The extension would have red brick work to match the existing dwelling with glazed sections and black/dark grey steel posts, sitting under a dark grey sarnafil flat roof.

SITE DESCRIPTION

The site is located on North Road in Gedney Hill. It comprises a two storey detached dwelling of part red brick construction with part render on the upper half. The dwelling is set back from the road by some 30 metres and benefits from a large gravelled driveway to the front providing extension

parking. The site is enclosed by fencing. There is a primary school located to the south-east of the site and the rest of the street comprises mainly residential dwellings.

RELEVANT PLANNING HISTORY

No relevant planning history.

REPRESENTATIONS

No representations received.

PLANNING CONSIDERATIONS

Principle of development

The site is within the Gedney Hill settlement boundary and the proposed extension would be sited within the residential curtilage of the existing dwelling therefore the principle of extending the existing dwellinghouse is acceptable.

Section 38 (6) of the Town and Country Planning Act, as amended by the 2004 Act, states that the determination must be made in accordance with the development plan unless material considerations indicate otherwise. The key material considerations are addressed below.

Layout, Design, Size and Scale

Paragraph 130 of the National Planning Policy Framework (NPPF), 2021 establishes that planning policies and decisions should ensure that developments will function well and add to the overall quality of the area; are visually attractive as a result of good architecture and sympathetic to local character and history, including the surrounding built environment and landscape setting; and create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations. Likewise, Policy 2 of the SELLP states that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

The proposed extension is considered proportionate to the existing dwelling. Given its modest height and footprint it is not considered to appear overly prominent in relation to the existing dwelling. Sufficient outdoor amenity space would be retained therefore the proposal is not considered to result in overdevelopment of the site. There would not by any views from the public realm given its location to the rear of the site therefore no unacceptable impact would result on the street scene.

As such the extension would on balance comply with the aforementioned policies on design, layout and impact upon the character of the local area.

Impacts upon Residential Amenity

Paragraph 130 of National Planning Policy Framework (2021) amongst other matters seeks places with a high standard of amenity for existing and future users. Policies 2 and 3 of South East Lincolnshire Local Plan (2019) set out residential amenity and relationship to existing development and land uses as main considerations when making planning decisions.

The closest neighbour to the proposed development is no.33 North Road located to the north-east of the application site. The proposed extension would be sited approximately 5 metres from this neighbours boundary. Given this separation distance, the limited height of the extension and the fact the extension would not extend beyond the existing outbuilding located along the shared boundary with this neighbour, the proposed development is not considered to result in any overbearing impact or unacceptable overshadowing.

With regards to the neighbour to the south (no.19 North Road) the proposed development would be sited approximately 6.8 metres form the shared boundary with this neighbour. Given the single storey nature of the extension with a limited height and a fairly modest rear projection closest to this neighbour, it is not considered that any overbearing impact or unacceptable overshadowing would result.

As such the proposal would accord with Paragraph 130 of National Planning Policy Framework (2021) and Policies 2 and 3 of South East Lincolnshire Local Plan (2019).

Planning Balance

The proposal will not materially harm the character or appearance of the locality or the amenity of nearby residents. The planning balance is therefore considered to be in favour of the proposal.

CONCLUSION

In light of the considerations above, the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan (2019) and Section 12 of the National Planning Policy Framework (2021).

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act.
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

RECOMMENDATION

The application can be approved under delegated powers.
