CASE OFFICER ASSESSMENT

Proposal

Approval is sought for amendments to the size and location of the floodlit menage previously approved. The menage area is proposed to be moved towards the south-west boundary and its size changed from 50 metres x 30 metres to 20 metres x 60 metres.

Site Description

The site amounts approximately to 1.36 hectares and has paddock land. It is adjacent to the built-up area of Gedney Hill. In particular, the site extends to the rear of frontage development comprising bungalows in Hubert's Close and No. 17 to 19b Station Road. Long narrow drains are the physical constraints of the site to the north, east and south. Further paddock land extends vastly to the east.

The vehicular access is made from Station Road. A long track runs between No. 17 and properties in Hubert's Close. No evidence of surface treatment has been observed. The boundary treatment is varied. A 2 metre high featheredge fence stands on the southern boundary of the site abutting plots

of properties in Station Road. Approximately 1.5 metre high wire fencing with concrete posts is along the northern boundary with Hubert's Close bungalows. A farm fence in state of disrepair is on the eastern boundary.

History

H07-1076-20 - Proposed stables with associated storage and Tack Room together with adjacent menage, paddocks and fencing. - Approved

Consultation Responses

No representations received.

Planning Considerations

Section 96A of the Town and Country Planning Act 1990 (introduced by S190 of the Planning Act, 2008) makes it possible to apply for a non-material amendment to existing planning permissions.

South Holland District Council's "Development Control Procedure Note: Non-Material Amendments to Planning Permissions" indicates that non-material amendments will be approved subject to the following criteria being met:

1. There would be no alteration to the application site boundary (red edge).
2. The amendment would not conflict with Development Plan Policies or other Government Guidance.
3. The proposal would not exacerbate concerns raised by third parties at original planning application stage.
4. The proposed change would not be contrary to a condition on the original approval.
5. The approved footprint/siting of the building will not be moved materially and will not have a material impact on a neighbour.
6. The height of the building or extension would not be increased.
7. The amendment would not result in any potential overlooking of any neighbouring property.
8. The amendments must not result in a fundamental change in the design of the building.
9. The proposal does not amount to new works or elements not considered by any Environmental Statement submitted with the application.

The criteria set out above are designed to prevent amendments being accepted that would have a detrimental impact upon neighbours or amenity in the wider public interest.

Assessing the proposal against the above, it is considered that moving the location of the menage would require re-consultations and alter the appearance of this part of the site.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be

balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Overall, it is considered that the proposed amendments would not satisfactorily comply with the criteria of South Holland District Council's Development Control Procedure Note Non-Material Amendments to Planning Permission. As such the Non-Material Amendment application is considered unacceptable.
