CASE OFFICER ASSESSMENT

Proposal

This is a full planning application for a proposed dwelling and triple garage including vehicular access on land adjacent to 78 Risegate Road, Gosberton Risegate.

Site Description

The site is situated within the settlement boundary of Gosberton Risegate, according to inset map no. 42 in the South East Lincolnshire Local Plan (2019).

The site is a frontage plot between an existing bungalow (number 78) and a two-storey dwelling (number 76). The site itself is the side garden of number 78. The former Methodist Church and Risegate Eau drain is opposite and there are open fields to the rear. There is frontage development all along this part of Risegate Road, but existing dwellings vary in terms of size and design.

Access would be directly off Risegate Road.

History

H08-0679-18 - Approved 21-09-18 - Proposed detached dwelling.

Consultation Responses

Gosberton Parish Council - No comments.

SHDC Environmental Protection Officer - No comments.

Local Highway and Lead Local Flood Authority - No objections. Requests standard highways informatives.

Planning Considerations

Principle

The site is located within the settlement boundary for Gosberton Risegate, as set out in the South East Lincolnshire Local Plan (2019). Gosberton Risegate sits in the Other Service Centres and Settlements tier of the settlement hierarchy (Policy 1: Spatial Strategy) in the Local Plan. This policy states that: "Development will be permitted that supports their role as a service centre for the settlement itself, helps sustain existing facilities or helps meet the service needs of other local communities. Development will normally be limited to Committed sites and infill". The proposed development can be considered to be infill development.

Furthermore, there is an extant planning permission for a similar dwelling on the site (H08-0679-18). The proposal is therefore considered acceptable in principle.

Layout, Design, Size and Scale

The proposal is for a 3 bedroom detached dwelling and a detached triple garage to the rear. The existing dwellings in the vicinity are fairly varied in terms of design, and the proposed finished materials are yet to be confirmed. A condition will be added to the decision notice to confirm materials at a later date. However, in principle, the design of the dwelling would not be unduly at odds with existing development in the vicinity.

The dwelling is proposed to be approx. 9.4m away from the road, approx. 4.6m from the eastern boundary and approx. 1.5m away from the western boundary. These are acceptable separation distances and will allow suitable access to the rear.

The proposed dwelling is would be approx. 7.4m in width by 11.2m in depth. The detached triple garage to the rear of the dwelling will be approx. 9.8m in width by 5.5m in depth. The garage would be approx. 6m away from the eastern boundary, which should be sufficient for reasonable manoeuvrability.

Taking into account the size of the plot and scale of the proposed development, it is considered acceptable in terms of mass, scale and bulk.

In light of the above, the proposed detached dwelling and triple detached garage is deemed to comply with Policies 2 and 3 in the SELLP, 2019 and Section 12 in the NPPF, 2019 in terms of layout, design, size and scale.

Impact upon Residential Amenity

There have been no neighbour objections and it is not considered that there would be a material adverse impact on residential amenity in terms of overlooking, loss or light or an overbearing effect.

Although there is a window proposed on the first floor of the side elevation facing the neighbouring property to the east (which also has a facing window), it would not be the window of a habitable room (being only the landing) and so overlooking is unlikely to be an issue. The property to the west has no side facing windows.

Finished floor levels are only required to be raised by 300mm, therefore the raising of levels should not create an overbearing effect.

The proposed dwelling would be approx. 10.5m from no. 78 to the east/north-east, therefore there should be no material overshadowing/loss of light impact.

Taking the above into account, the proposal is deemed to comply with Policies 2 and 3 in the SELLP, 2019 and Section 12 in the NPPF, 2019 in terms of residential amenity.

Flood Risk

The site is located within Environment Agency Flood Zone's 1 and 3 and the South East Lincolnshire Strategic Flood Risk Assessment (March 2017) identifies the site as not being affected by flood hazard or flood depth. However, a condition will be added that finished floor levels are to be set at 300mm above existing ground level, as recommended in the submitted Flood Risk Assessment.

Parking provision

In connection with Policy 36 of SELLP 2019, Appendix 6 sets out the minimum requirements for car parking provision. 2 no. car spaces must be provided within the curtilage for dwellings up to 3 no. bedrooms. The space to the front is clearly sufficient to accommodate these cars and enter and egress in a safe and forward manner, as well as the provision of the triple garage to the rear of the property. Further details will need to be provided however as detail on the submitted drawings is limited, and will be secured by condition.

Planning Balance

Section 38 (6) of the Town and Country Planning Act, as amended by the 2004 Act, states that the determination must be made in accordance with the development plan unless material considerations indicate otherwise.

The proposed detached dwelling and detached triple garage will not materially harm the character or appearance of the locality or amenity of nearby residents. It is acceptable on flood risk and highway grounds. It is therefore considered to be in accordance with Policies 2, 3 and 4 of the South East Lincolnshire Local Plan, 2019.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

The recommendation is for a delegated approval.
