Thank you for referring the ecological survey to Lincs Bat Group. Whilst finding the bat report element of it satisfactory, we are surprised that the ecologist didn't consider ordering local biological records necessary (3.30), given that if he had he would have found records for both brown long-eared and the much scarcer Natterer's bats to have been recorded in the vicinity. We therefore absolutely endorse the need for further surveys this summer - see 4.8.
