CASE OFFICER ASSESSMENT

Proposal

This is a householder application, seeking permission for the erection of a single storey side extension to 16 Godfrey Avenue in Gosberton. The extension would project from the side elevation by a maximum of 5.4m and would project from the rear elevation slightly by 1.78m. The extension would be constructed with red brickwork to match the existing dwelling.

Site Description

The application site is a semi-detached two-storey dwelling that lies on Godfrey Avenue in Gosberton. The site is located within a residential area and is surrounded by dwellings of similar designs. To the east of the dwelling (rear) is open field with residential development taking place approved under H08-1216-17.

History

No planning history on site.

Consultation Responses

The responses received from consultees during the initial consultation exercises, which can be viewed in their entirety through the South Holland website, can be summarised as follows:

Welland & Deeping Internal Drainage Board

Further to receipt of the above, I confirm that Welland & Deepings IDB have no comment to make with regard to this application.

LCC Highway and Lead Flood Authority

Recommendation: No Objections
The proposal is for a single storey side extension to create accessible bedroom and wetroom and it does not have an impact on the Public Highway or Surface Water Flood Risk. As Lead Local Flood Authority, Lincolnshire County Council is required to provide a statutory planning consultation response with regard to drainage and surface water flood risk on all Major applications. This application is classified as a Minor Application and it is therefore the duty of the Local Planning Authority to consider the surface water flood risk and drainage proposals for this planning application.

Public Representation

This application has been advertised in accordance with the Development Procedure Order and the Council's Statement of Community Involvement. In this instance, no letters of representation have been received.

Evaluation

Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

In this case, the adopted South East Lincolnshire Local Plan 2011-2036, adopted March 2019, forms the development plan for the District, and is the basis for decision making in South Holland. The relevant development plan policies are detailed within the report above.

The policies and provisions set out in the National Planning Policy Framework (December 2023) are also a material consideration in the determination of planning applications, alongside adopted Supplementary Planning Documents.

Furthermore, where a Neighbourhood Plan has been adopted, this alongside the adopted Local Plan, forms part of the Development Plan for the District, and must be considered when assessing development proposals. In this instance, no relevant neighbourhood plans have been adopted.

Principle of Development and Sustainability

The South East Lincolnshire Local Plan (2019) sets out the settlement hierarchy in respect of delivering sustainable development that meets the social and economic needs of the area whilst protecting and enhancing the environment; in order to provide enough choice of land for housing to satisfy local housing need, whilst making more sustainable use of land and to minimise the loss of high-quality agricultural land by developing in sustainable locations and at appropriate densities.

Policy 1 of the South East Lincolnshire Local Plan (2019) sets out a spatial strategy for delivering sustainable development across South East Lincolnshire to 2036. Policy 1 (Spatial Strategy) expresses this sustainable framework of settlements, ranking the settlements deemed to be most sustainable in descending order.

The most sustainable locations for development are situated within the 'Sub-Regional Centres', followed by 'Main Service Centres'. Lower down the hierarchy in respect of sustainable development are areas of limited development opportunity including 'Minor Service Centres', with areas of development constraint comprising 'Other Service Centres and Settlements'. The countryside is at the bottom of the settlement hierarchy and represents the least sustainable location.

Policy 1 (Spatial Strategy) of the South East Lincolnshire Local Plan (2019) indicates that within Minor Service Centres, development will be permitted that supports their role as a service centre for the settlement itself, helps sustain existing facilities or helps meet the service needs of other local communities. Development will normally be limited to Allocated and Committed sites and infill.

The application site in this instance is within Gosberton, a Minor Service Centre, and lies within the defined settlement boundaries as detailed by Policy 1. Regardless of such, the proposal solely relates to the extension of an existing and established residential dwelling and therefore, the principle of such development is considered to be appropriate, comprising an appropriate form of development for the location.

As such, the proposal is considered to be in accordance with the requirements of the South East Lincolnshire Local Plan (2019) when viewed in principle. This is subject to the assessment against site specific criteria; including (but are not limited to) the impact of the proposal on the character or appearance of the area, impact on the residential amenities of neighbouring occupiers, and impact on highway safety, which are discussed in turn as follows.

Layout, Design and Consideration of the Character and Appearance of the Area

Section 12 of the National Planning Policy Framework (December 2023) specifically relates to 'Achieving well-designed and beautiful places' and details that the "creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process should achieve" and as such, it is generally accepted that good design plays a key role towards sustainable development.

Paragraph 135, contained within Section 12 of the National Planning Policy Framework (December 2023), states that new development should function well and add to the overall quality of the area (including beyond the short term) and should be visually attractive as a result of good architecture and appropriate landscaping. This goes on to establish that it is important that new development should be of the highest quality to enhance and reinforce good design characteristics, and that decisions must have regard towards the impact that the proposed development would have on local character and history, including the surrounding built environment and landscape setting such as topography, street patterns, building lines, boundary treatment and through scale and massing.

Development proposals should also ensure that developments create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations.

Likewise, Policy 2 of the South East Lincolnshire Local Plan (2019), outlines the sustainable development considerations for development proposals, providing a framework for an operational policy to be used in assessing the sustainable development attributes of all development proposals. Furthermore, Policy 3 accords with the provisions of Section 12 of the National Planning Policy Framework (December 2023), in that it requires development to comprise good design; identifying issues that should be considered when preparing schemes so that development sits comfortably with, and adds positively to, its historically-designated or undesignated townscape or landscape

surroundings.

These policies accord with the provisions of the National Planning Policy Framework (December 2023) and require that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

Proposals for new development would therefore require the aforementioned considerations to be adequately assessed and designed, including the siting, design and scale to be respectful of surrounding development and ensure that the character of the area is not compromised.

The proposed extension comprises a single storey scale and would be located to the side of the host dwelling. The extension is modest in its size and design and is considered to sit well with the existing dwelling. The extension would be visible from the highway, or public vantage points along Godfrey Avenue given that it extends beyond the side of the host dwelling. Given the existing boundary fencing, the proposed extension, given its scale and siting, would not be a prominent or visually intrusive addition, and would not cause an adverse impact to the character or appearance of the area.

The proposed extension is considered to be proportionate to the size of the existing dwelling and the plot. The site is of suitable size to comfortably accommodate the proposed extension without resulting in overdevelopment of the site and would also retain an adequate amount of outdoor amenity space.

Overall, the proposal would ensure good living conditions of the house occupiers and would be in keeping with the residential use of the property.

Taking account of the design, scale and nature of the development, as detailed above, the proposal is considered to be acceptable. The proposal would not cause an adverse impact to the character or appearance of the area and would therefore be in accordance with policies 2 and 3 of the South East Lincolnshire Local Plan (2019) and Section 12 of the National Planning Policy Framework (December 2023).

Impact on Residential Amenity/Land Users

Paragraph 135 of the National Planning Policy Framework (December 2023) states that development should create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users; and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience.

Policies 2 and 3 of South East Lincolnshire Local Plan (2019) sets out that residential amenity and the relationship to existing development and land uses is a main consideration when making planning decisions.

It is not considered that the proposal would overshadow, overlook or be overbearing to the neighbouring properties. The closest neighbour to the proposed development is No. 18 Godfrey Avenue, located to the south west. The proposed extension would be sited approximately 5.7m to the shared boundary with the neighbouring property to the south east; however, the extension has a relatively modest side projection, so it is not considered that any unacceptable impact would result on the amenity of this neighbour in terms of overbearing impact or unacceptable overshadowing.

As detailed above, the scale and design of the proposal is considered to be such that there would be no significant or unacceptable impact on the residential amenities of the occupiers of adjacent properties or land users, when also taking account of the conditions recommended. As such, the proposal is considered to accord with the provisions of Section 12 of the National Planning Policy Framework (December 2023), and Policies 2 and 3 of the Local Plan.

Highway Safety and Parking

Section 9 of the National Planning Policy Framework (December 2023) specifically relates to 'Promoting sustainable transport'. Paragraph 115 of the National Planning Policy Framework (December 2023) advises that "development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe".

In respect of highway matters, Policy 2 details that proposals requiring planning permission for development will be permitted provided that sustainable development considerations are met, specifically in relation to access and vehicle generation. Policy 3 details that development proposals will demonstrate how accessibility by a choice of travel modes including the provision of public transport, public rights of way and cycle ways will be secured, where they are relevant to the proposal.

In connection with Policy 36 of South East Lincolnshire Local Plan (2019), Appendix 6 sets out the minimum requirements for car parking provision. This details that 3 no. car spaces should be provided within the curtilage for dwellings with more than 3 no. bedrooms. In this instance the proposal would appear to be at conflict with Appendix 6 as the proposal is likely to result in 4 bedrooms; however, the proposal is for a single storey side extension providing one additional bedroom for the reasons outlined within the application. The proposed enlargement is not considered to give rise to an unacceptable impact in this regard, and therefore on balance it is considered that there will not be an unacceptable impact to the highway.

The proposal would therefore be acceptable and would not have an unacceptable adverse impact on highway safety in accordance with Local Plan Policies 2 and 3 and Section 9 of the National Planning Policy Framework (December 2023).

Planning Balance

As detailed above, Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

The proposed extension will not materially harm the character or appearance of the locality or amenity of nearby residents. It is therefore considered to be in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan, 2019.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for

private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Taking the above considerations into account, the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan, 2019, along with the relevant provisions of the National Planning Policy Framework (December 2023). There are no significant factors in this case that indicate against the proposal and outweigh the consideration in favour of the proposal and the policies referred to above.

Recommendation

It is recommended that the proposal should be approved under delegated authority.
