We apologise for the delay in replying, but I have been away on business and are catching up on paperwork now.

We did ask for assistance on where to obtain such a piece of equipment and we were put in touch with Acoustic Services.

Subsequently we ordered the equipment in April 96 at an additional cost to our original costings value £ 688.55

During construction of the new Hall we installed the device whilst the electricians were fitting out.

Subsequently we have installed the unit so now power is available until the device is in operation.

We believe the equipment was seen by the officer when the building was inspected for its completion certificate.

I shall be pleased to forward any further information should this be required.

Yours faithfully.

Tony Sheppard.
