This message originated from outside your organization

Tracey

Ideally, the applicant would like uPVC windows in the style shown on design plans but I wouldn't want this to refuse the application. There is some high quality uPVC sliding sashes on the market nowadays that have been installed in listed buildings.

Okay, I agree to the EOT again

Many thanks and best regards,

Jason Wilson

Hi Jason,

I am just writing this application up for Chairman's Panel, and have two questions:

1. No materials have been submitted. The design shouts timber windows to be agreed by condition. How likely is it that the applicant will want UPVC? I need to know this before Friday pm if possible please.

2. The Chairman's Panel is on the 9th December, but the decision is due on the 2nd. Would you agree to an extension of time to 30th December to keep the application current?

Many thanks
