GOSBERTON BAPTIST CHURCH, SPALDING ROAD, GOSBERTON SPALDING, LINCS. PE11 4

To change the floor structure which has deteriorated and now lacks adequate ventilation which is difficult to achieve. It is subject to constant wet rot. For the purposes of worship over the last number of decades the floor cover has been carpet. Our intention is to take up existing wooden boards and decayed floor structure and replace with a new structure comprising hardcore, damp-proof membrane and concrete with provision for a new timber floor.

Arderne Gillies
