DC_FINAL_DECISION - ODB:14

Reason: To ensure the preparation and implementation of an appropriate scheme of archaeological mitigation in accordance with national guidance contained in Section 16 of the National Planning Policy Framework, 2021. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.

Reason: To ensure satisfactory arrangements are made for the recording of possible archaeological remains in accordance with national guidance contained in Section 16 of the National Planning Policy Framework, 2021.

11 The development hereby permitted shall not be commenced before details of the means of storage and disposal of refuse and recycling, as well as appropriate management and maintenance, have been submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be fully implemented before the first occupation of relevant dwellings and shall thereafter be retained.

Note: For residential development, reference should be made to the Council's published PRIVATE DRIVES - WASTE VEHICLE COLLECTION SERVICE - GUIDANCE NOTE when submitting these details.

Reason: To ensure that adequate facilities are made available for refuse storage and disposal to avoid pollution, to protect residential amenity, and in the interests of the appearance of the site and the area within which it is set. details of ecological biodiversity measures to be installed in conjunction with the development shall be submitted to and approved in writing by the Local Planning Authority. The measures shall be constructed and retained in accordance with the details so approved.

Note: Development can incorporate a number of simple, low-cost measures to deliver biodiversity benefits and enhance priority habitats and species such as the use of bat and barn owl roost boxes and integrating nesting opportunities into buildings. The use of swift bricks on new developments would help minimise the decline in swifts, a priority species.

Reason: To ensure that the development is able to deliver a net gain in biodiversity.
This Condition is imposed in accordance with Policy 28 of the South East Lincolnshire Local Plan, 2019 and national guidance contained in the National Planning Policy Framework, 2021.

The person carrying out the work must inform the Building Control Body that this duty applies. A notice confirming the requirement for the water consumption has been met shall be submitted to the Building Control Body and Local Planning Authority, no later than five days after the completion of each individual dwelling.

Reason: To protect the quality and quantity of water resources available to the district.
This Condition is imposed in accordance with Policy 31 of the South East Lincolnshire Local Plan, 2019.

Notes:

The Local Planning Authority has acted positively and proactively in determining this application by assessing it against all material considerations, including national guidance, planning policies and representations that have been received during the public consultation exercise, and subsequently determining to grant planning permission.

This decision notice, the relevant accompanying report and the determined plans can be viewed online at http://planning.sholland.gov.uk/OcellaWeb/planningSearch

Gosberton Public Footpath No. 5 is affected by the proposed development. Please note that the footpath was unofficially diverted a number of years ago and the route on the ground now follows a different alignment to the legal alignment. It would appear that the footpath passes through plots 7 and 8 of the proposed layout. The footpath will therefore require diverting to enable development to take place or alternatively the development layout will require amending and the public footpath reinstating on the correct legal alignment.

Comments;
i/ It is expected that there will be no encroachment, either permanent or temporary, onto the right of way as a result of the proposal. Width to be retained 2m.
ii/ The proposed development should not pose any dangers or inconvenience to the public

using the right of way.
iii/ If any existing gate or stile is to be modified or if a new gate (including gate posts) or stile is proposed on the line of the public rights of way, prior permission to modify or erect such a feature must be sought from the County Council.
iv/ The surface of the public footpath should not disturbed without the prior permission of the highway authority.

South Holland District Council

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the

Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under the order.

Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grant it subject to conditions the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of the Part VI of the Town and Country Planning Act 1990 or Section 32 of the Planning (Listed Building and Conservation Areas) Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him.

These circumstances are set out in Section 114 and related provisions of the Town and Country Planning Act 1990 and Section 27 of the Planning (Listed Building and Conservation Areas) Act 1990.
