STANDARD FEATURES

- V313 resin bonded water resistant flooring
- 25mm fibreglass insulation in the walls
- All models have detachable tow bars
- Electric shaver sockets in all double bedrooms
- Television aerial socket
- Smoke alarm and fire extinguisher are standard
- Flame failure device on all ovens and hobs
- Ceramic sanitary ware

OPTIONAL FEATURES

Environmental exterior colours for holiday homes situated in national parks or areas of outstanding natural beauty are available as an optional extra.

The propane powered combi boiler supports high output radiators and delivers plentiful hot water. For convenience and peace of mind, the heating system is sealed with antifreeze and requires no Draining down.

A standard fitment in the Banbury master bedroom, this wall mounted electric heater and similar models are also available throughout the other ranges as an option.

Cosmos bed available as an option on most models.

For 2004 we can offer as an optional extra domestic wet system radiators to all models (except Banbury 282B and 343B). When selected as an extra, additional insulation package will be included.

In addition to the standard insulation you may wish to increase the specification with a selection of extra packages to suit your requirements, including external pipe lagging.
