Good afternoon Greg,

In response to your queries please see below:-

1) In relation to the emplacement of the 'heras' panels around the lime tree after rather than before site prep, please can you confirm in writing how you will avoid perambulation and any other form of damage to the lime tree prior to the installation of the 'heras' panels.

In light of this query and in retrospect we will erect the 'heras' fencing prior to the any work commencing on site.

2) Please can you confirm that as part of you program of works, any area of previous driveway within the root/spread protection area of the lime tree will be de-compacted prior to the laying of new material in order to allow free flow of gaseous and liquid exchange.

Yes we will de-compact the area of the drive within the area of protection of the lime prior to any new material being applied t the surface.

Kindest regards & Keep safe,

Jason

Hi Jason,

I have completed my report and am now in the process of signing off. However, a couple of matters have been raised that I would appreciate if could be clarified in writing by yourself, following on from review of the comments submitted by our trees and nature conservation officer.

1) In relation to the emplacement of the helas panels around the lime tree after

rather than before site prep, please can you confirm in writing how you will avoid perambulation and any other form of damage to the lime tree prior to the installation of the heras panels.

2) Please can you confirm that as part of you programme of works, any area of previous driveway within the root/spread protection area of the lime tree will be de-compacted prior to the laying of new material in order to allow free flow of gaseous and liquid exchange.

Once we have details/confirmation of the above, I should be able to release the determination in very short order.

Many thanks.

Kind regards,

Greg

Good afternoon Greg,

Hope this finds you safe and well?

Do you have any news for us on the approval please. The contractor is wishing to make a start hopefully tomorrow.

Kindest regards & Keep safe,

Jason
