
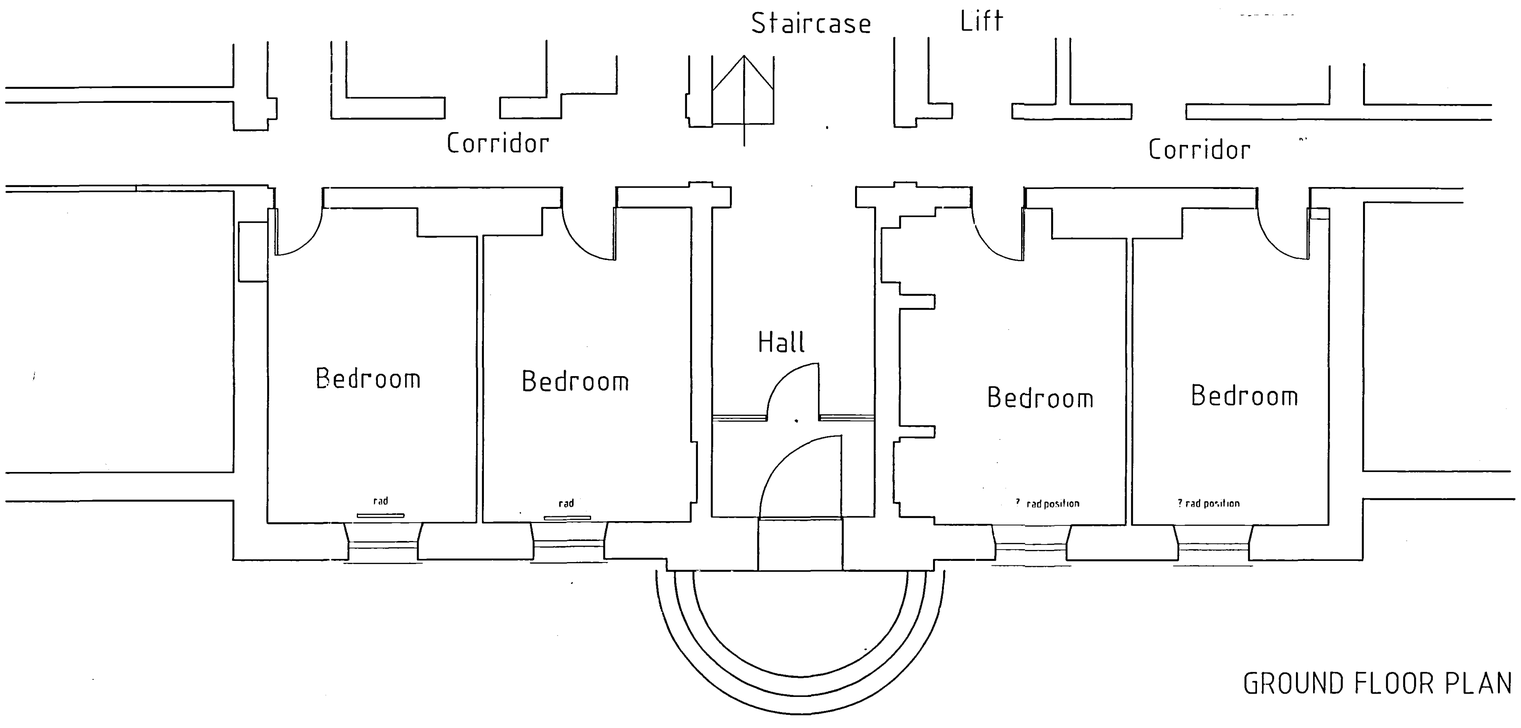
FIRST FLOOR PLAN



GROUND FLOOR PLAN

Developers are advised to establish there is no made ground or wide variations in the type of subsoil within the loaded area and no weaker type of soil exists below the soil on which the foundations rest within such depth as may impair the stability of the structure.

The deposited plans have been examined against the criteria set out in the Building Regulations. It is neither practical or reasonable to show all relevant matters on working drawings, the fact that minor matters are not mentioned does not alleviate the builder from the responsibility of non-compliance in the carrying out of site operations.

SHDC Planning & Development - 8 DEC 2006 Ref: 1698/06

This is a true copy of the Plan deposited with the South Holland District Council and approved by them under the Building Regulations subject to conditions shown on the Notice of Passing of Building Plans..
