TOWN AND COUNTRY PLANNING ACT 1990

Reference: H09-0025-95 **Date of Decision:** 27th March 1995

Applicant: Trustees of the Gregory and Everard Trust

Location: Penny Hill/Battlefields Lane Holbeach Spalding

Description: Residential development (renewal of H16/0320/92)

South Holland District Council hereby give notice that this application has been GRANTED (or equivalent) subject to the following condition(s):

1 Application for approval of reserved matters must be made not later than three years beginning with the date of this permission, and the development must be begun not later than whichever is the later of the following dates:
(a) the expiration of five years from the date of this permission,
(b) the expiration of two years from the final approval of reserved matters or in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: As required by Section 92 of the Town and Country Planning Act 1990.

2 The following matters are reserved for subsequent approval by the Local Planning Authority and shall be submitted for such approval simultaneously and no development to which they relate shall be carried out until these matters have been approved viz:
1) Detailed drawings of the estate layout to a scale of not less than 1/500 including road and plot layouts.

2) Detailed drawings to a scale of not less than 1/100 showing the siting, design, and external appearance of the buildings, including particulars of the materials to be used for external walls and roofs.
3) The siting and design of any vehicular access to a highway or estate road.
4) Detailed drawings to a scale of not less than 1/500 of a landscaping scheme showing the following details:
(i) the positions, heights and species of existing trees;
(ii) proposals for felling or retention of existing trees;
(iii) proposals for tree planting, including the number, species, heights on planting and positions of all trees, shrubs and hedgerows;
(iv) proposals for the provision of incidental grass areas or other open spaces, including particulars of the treatment of hard surfaces, and any other features intended to enhance the attractiveness of the environment;
(v) proposals for the provision of screen walls or fences, including details of heights, positions, designs and types of construction.

Such a landscaping scheme as may be approved by the Local Planning Authority shall be carried out in its entirety within a period of two years beginning with the date on which development of the land is commenced. Screen walls and fences included in the approved scheme, together with trees, shrubs and hedgerows which it is proposed to plant within the curtilages of individual dwellings, shall be provided before occupation of the respective dwellings. Trees, shrubs, bushes and hedgerows shall be adequately maintained by the owner(s) of the land on which they are situated for a period of ten years beginning with the completion of the scheme, and all losses shall be made good during that period. All walls and fences shall be retained in their approved position. Details of the position and design of any walls or fences to be erected nearer to any highway, public footway or amenity area than the nearest part of each building, other than those shown as part of the approved scheme, shall be submitted to and approved by the Local Planning Authority, and no such walls or fences shall be erected until such details have been approved.

Reason: The application was submitted in outline only, and the above details are required to enable the Local Planning Authority to assess the standard and overall design concept of the proposed development. Implementation of such landscaping scheme as may be approved and restriction of intrusion into open areas is required in the interests of the visual amenities of the estate.

3 The proposed accesses shall be laid out and constructed as shown on drawing number 771296/2 and 771296/1, before any development takes place.

Reason: To ensure provision of adequate facilities for safe ingress and egress of vehicles calling at the site in the interests of road safety.

4 A 5.5 metre wide distributor road shall be formed within the site, linking

the two access points. Such a link shall be provided before 50% of the proposed dwellings are constructed.

Reason: To provide a satisfactory road network.

5 Before any development is commenced the approval of the Local Planning Authority is required to:

(i) a specification of the type of construction proposed for roads and/ or footways;

(ii) a programme for the making up of the roads and/or footways;

(iii) details of the method and means of disposal of surface water;

(iv) detailed plans to a scale of 1/500 showing the layout of the roads and footways together with longitudinal sections to a scale of 1/500 horizontal and not less than 1/100 vertical showing the gradients of carriageways and full details of surface water drainage proposals. (Cross-sections taken at not more than 30 metres intervals normal to the proposed carriageway plotted to a scale of 1/100 natural will also be required where the adjoining ground levels will vary 0.5 metres plus from the proposed finished footway levels of the estate road);

(v) details of all proposed services showing location within the highway in accordance with the Report of the Joint Committee on the location of underground services published by the Institute of Civil Engineers in 1963.

Reason: To ensure an adequate standard of access to the estate in the interests of local amenity and convenience.

6 No dwelling to which this permission relates shall be commenced unless or until the carriageway basecourse and kerb foundation of the new estate roads onto which it fronts, is adjacent to, or gains access from, has been constructed.

Reason: To enable the position of the dwelling(s) and associated estate road(s) in the layout to be fixed more accurately in the interests of the proper planning of the area.

7 Before the commencement of development, a scheme shall be agreed with the Local Planning Authority which specifies the provisions to be made for the attenuation of noise emanating from road traffic. Such scheme shall be implemented to the satisfaction of the Local Planning Authority before the occupation of the last dwelling to be constructed.

Reason: To ensure an acceptable standard of residential amenity.

8 Before any development is commenced the approval of the Local Planning Authority is required to the detailed design of the scheme to provide for the satisfactory disposal of highway surface water run-off from the development; and such scheme as approved shall be carried out before any building is occupied.

Reason: To ensure that highway surface water run-off from the development will not adversely affect, by reason of flooding, the amenity of nearby land.

9 The existing vehicular access onto Park Road, opposite the George Farmer's School, shall be permanently closed off before development is commenced, to the reasonable satisfaction of the Local Planning Authority.

Reason: In the interests of road safety.

10 The development shall be undertaken stricly in accordance with the approved plans.

Reason: To define the terms of the permission and to ensure a satisfactory form of development.

Notes:

The detailed layout should incorporate an extension of a footpath running through the adjoining development to the south.

South Holland District Council
