H09-0349-21

Rosemead, Stotons Gate, Holbeach St Johns

Statement in Support of Application

This application is for a vehicular/pedestrian access including gates and fencing.

The site is isolated, having only one neighbour, and is vulnerable to anti-social behaviour such as vandalism and burglary.

The applicant has only owned the property for 9 months, however, they have already experienced intruders including a robbery around the 7th January 2021 when property and equipment was stolen. The incident was reported to the police and a crime number provided.

The purpose of the proposals is to provide privacy and enhanced security to the area of the site in front of the dwelling house.

In order to soften the appearance, it is proposed to plant a Hawthorn hedge to the outside face of the close boarded fence (the prickly nature of this plant further acts as a deterrent to intruders).

On behalf of Mr S Sillwood (applicant)
