Thank you for consulting Lincolnshire Bat Group on this application. As far as I can see there has been no protected species assessment/survey done on this site, either with the present application or the previous one - which would, in any case, by now be out of date. Without photos or plans of the existing building(s) it is hard to make a judgment, but one would have thought at the very least an environmental assessment should be done - if only to inform enhancement for biodiversity.
