Dear Sirs

TOWN AND COUNTRY PLANNING, ENGLAND AND WALES
THE TOWN AND COUNTRY PLANNING GENERAL DEVELOPMENT ORDER 1988:
SCHEDULE 2 - PART 24

Under the conditions laid down in part 24 of schedule 2 of the above legislation, the telecommunications development listed below falls into the category of permitted development. However, we are writing to invite your prior approval to the siting and appearance of the development as required by para A-2 (4) of the GDO.

LOCATION OF SITE:
Manor Farm
Near Holbeach Hurn
Spalding
Lincolnshire
PE12 8LR
N.G.R: 540400 /328400

OFFICE COPY

The development comprising a 0.3m diameter radio dish antenna mounted on a telegraph pole at 15m AGL, has been particularly sited to give a clear line of sight to the antenna situated at Long Sutton Telephone Exchange.
There will also be a small equipment module mounted on the pole at a height of approximately .. metres. A photocopy of a similar installation, a map showing the exact location of the development and the relevant fee are attached to this submission.

The apparatus is required to provide outstanding service commitments and we therefore wish to install this equipment as soon as possible. Your early comments regarding this submission would therefore be greatly appreciated. In accordance with the terms of the GDO, if we have not received any response to this application within the statutory 28 days of its receipt, we intend to proceed with the development as planned.

Please forward all correspondence to the above address.

Yours faithfully

David Taylor
Midlands Radio Planning
