I can confirm that the written scheme of archaeological investigation submitted with this applications has been approved by this office. Therefore Condition 21 can be discharged.

However, we are not aware that any archaeological work has yet started on site, so we have not received the 14 days notification of works commencing and we have certainly not received the final report and the archive has not been deposited. Therefore Conditions 22 and 23 cannot be discharged.

If archaeological work has started, or the development has commenced without archaeological monitoring being carried out then the applicant will be in breach of their conditions.
