Hi,

Please find attached documents as requested.

Also in response to the questions asked.

1. Please confirm the height and length of the proposed fence (metric).

Please find lengths of fencing to be installed.

10.8m length

4.2m from existing fence to join to the new fence

1m from corner of brickwork of existing house to new fence.

1.85m high (6ft)

The Fence will be 150-300mm set back away from the public footpath and will be kept straight and not following the curve of the path. This will be filled with gravel to stop any weeds and low maintenance.

2. You have submitted 2 site location plans, one outlined in red and one hatched in black.

Unfortunately the 2 plans do not correspond in terms of the outline of the site. For location purposes please provide a 1:2500/1:1250 site location plan with the site boundary outlined in red.

This has now been attached below.

Thank you

Kind Regards

Nico Sutton
