Thank you for consulting us on this.
Although the Written Scheme of Investigation (WSI) has been agreed in principle, it has not been formally submitted for approval as required by Condition 10 attached to planning permission ref. no. H09-0130-24. We are therefore unable to recommend the discharge of this condition.
Furthermore, the submitted draft Historic Building Recording report does not meet the required standards and is therefore not acceptable for the discharge of Condition 12 (submission of the final report) attached to planning permission ref. no. H09-0130-24.
We are therefore unable to recommend the discharge of Conditions 10 and 12 at this stage.
