Good morning,

I'm the planning agent for the above application which has been submitted via the Planning Portal on 10 July.

Prior to the application being formally validated by your validation team I would like to amend the description of development to ensure it accurately reflects the proposed demolition of the on-site barn. The requested description of development is set out below in italics:

Demolition of existing barn and erection of twenty-three dwellings, with access from Foxes Low Road and a secondary access formed to the north, together with associated landscaping and open space.

The planning fee has been paid and hopefully the suggested description of development can be used to validate application. If you require an amendment of the planning forms please advise.

Regards,

Andy Carter
