MOD DIO Ref: 10062793

Good afternoon Maxine,

Thank you for consulting the Ministry of Defence (MOD) on amended full application H00-0699-23

The Defence Infrastructure Organisation (DIO) Safeguarding Team represents the MOD as a consultee in UK planning and energy consenting systems to ensure that development does not compromise or degrade the operation of defence sites such as aerodromes, explosives storage sites, air weapon ranges, and technical sites or training resources such as the Military Low Flying System.

I can confirm that, following review of the application documents and necessary assessment, the proposed development would be considered to have no detrimental impact on the operation or capability of a defence site or asset. The MOD has no objection to the development proposed.

The MOD must emphasise that this email is provided specifically in response to the application documents and supporting information provided via email on 16/12/24 by South Holland District Council.

Amendments to any element of the proposed development (including the location, dimensions, form, and/or finishing materials of any structure) may significantly alter how the development relates to MOD safeguarding requirements and may result in detrimental impact(s) on the operation or capability of defence sites or assets.

In the event that any:

- revised plans;
- amended plans;
- additional information; or
- further application(s)

are submitted for approval, the MOD, as a statutory consultee, should be consulted and provided with adequate time to carry out assessments and provide a formal response whether the proposed amendments are considered material or not by the determining authority.

Kind Regards

Chris Waldron

Assistant Safeguarding Manager
