

Architectural elevation drawings of a two-story house, showing three views: Side Elevation, Rear Elevation, and another Side Elevation.

Side Elevation (Left): Shows a side profile of the house. The roof is gabled with a chimney on the right side. The ground floor features a central door flanked by two arched windows. The upper floor has a large window on the left and a smaller one on the right. A small balcony is visible on the far left.

Rear Elevation (Middle): Shows the rear of the house. The roof is gabled with a chimney on the right side. The ground floor has a central door and a small window to the left. The upper floor features a balcony with a railing and a large window. A small balcony is visible on the far right.

Side Elevation (Right): Shows another side profile of the house. The roof is gabled with a chimney on the right side. The ground floor has a large window on the left and a smaller one on the right. The upper floor has a large window on the left and a smaller one on the right. A small balcony is visible on the far right.
