## Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

**Reason biodiversity net gain does not apply:**
Development site area of 0.2 hectares or below

**Are there any priority habitats on or within 500m of your site?:**
No

**Can you evidence that you carried out a site assessment if the local authority disputes the presence of priority habitats?:**
Yes

**Please justify the reason why biodiversity net gain does not apply:**
This development qualifies for the 0.2-hectare Biodiversity Net Gain (BNG) exemption under Regulation 7A of the Biodiversity Gain Requirements (Exemptions) Regulations 2024, as amended by the Biodiversity Gain (Town and Country Planning) (Amendments and Transitional Provisions) (England) Regulations 2026. The exemption applies because the proposal meets both statutory conditions: 1. Site area is no larger than 0.2 hectares The red-line application boundary measures less than 0.2 hectares, which is below the threshold set out in Regulation 7A(3). Government guidance confirms that from 6 August 2026, planning applications for developments where the site area is 0.2 ha or below are exempt from mandatory BNG. 2. The development does not impact any onsite priority habitat A review of the site confirms that no priority habitat is present within the red-line boundary, and the proposed works do not result in the loss, degradation, or reduction in biodiversity value of any priority habitat as defined in Regulation 4(2). Regulation 7A(2) requires that the development must not impact an onsite priority habitat for the exemption to apply.

Please read the help text for further information why developments may be exempt or not in scope.

In summary, the broad principle of residential development on this site may be considered acceptable, particularly given the previously developed land status of the plot and the self build nature of the proposal. However, there are initial concerns relating to the design of the properties

and their potential amenity impacts. On this basis, a redesigned scheme, potentially utilising single-storey dwellings, may be recommended prior to a formal submission.

## Authority Employee/Member

**With respect to the Authority, is the applicant and/or agent one of the following:**
**(a) a member of staff**
**(b) an elected member**
**(c) related to a member of staff**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
