4. Site Area

What is the measurement of the site area? (numeric characters only).	15
Unit	sq.metres

5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

The development is a front porch, which forms another part of the permitted development on the side of the house.
The permitted development is a bathroom extension, as the current bathroom has always been extremely small (around four square metres).
The builder suggested that if we wanted a front porch, it would be far more efficient to tie-in the two rooms onto a common foundation and under a common roof, which would give a much neater and far nicer appearance as opposed to two building separate rooms, with a vertical line in the brickwork between the two rooms.
He said that this would also make it simpler to match the rooms to the existing house structure.

Has the work or change of use already started? ◉ Yes ○ No

If yes, please state the date when the work or change of use started (date must be pre-application submission) DD/MM/YYYY	05/11/2018

Land where contamination is suspected for all or part of the site ○ Yes ◉ No

A proposed use that would be particularly vulnerable to the presence of contamination ○ Yes ◉ No

7. Materials

Does the proposed development require any materials to be used? (●) Yes ( ) No

Please provide a description of existing and proposed materials and finishes to be used (including type, colour and name for each material):

Walls	
Description of existing materials and finishes (optional):	The house was built in 1917 out of bricks with a red slate roof. At some point before we moved in, all of the original windows were replaced with double-glazed windows and the exterior doors were replaced with PVC insulated doors.
Description of proposed materials and finishes:	The extension is made of bricks from London Brick Company and the roof is covered with red slates. The two windows are double-glazed white PVC to match the existing windows, and the exterior door is the same. The new floors will be Celotex insulation laid over a damp-course on top of the new floor slab, and this will be covered with a 100 mm layer of floor screed. Interior walls and ceilings are covered with plasterboard and skrim and then painted.
