Dear Mrs Thornally,

Planning Permission - Weather Vane

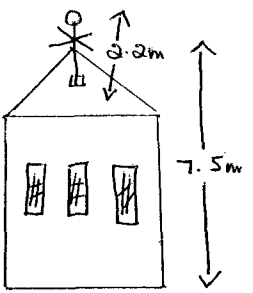

Earlier in the summer, you kindly offered to put in a planning application on our behalf for a weather vane to be fixed onto the school. I have finally got the details from the designer and would be grateful if you would now go ahead and put in the application for us.

Position - the south facing gable end of the hall at the apex.

Height - the hall is approximately 7·5m high.

Size - the weather vane is 2·2m high and 1m wide. Approximately 1m of the height would be taken up in the fixing.

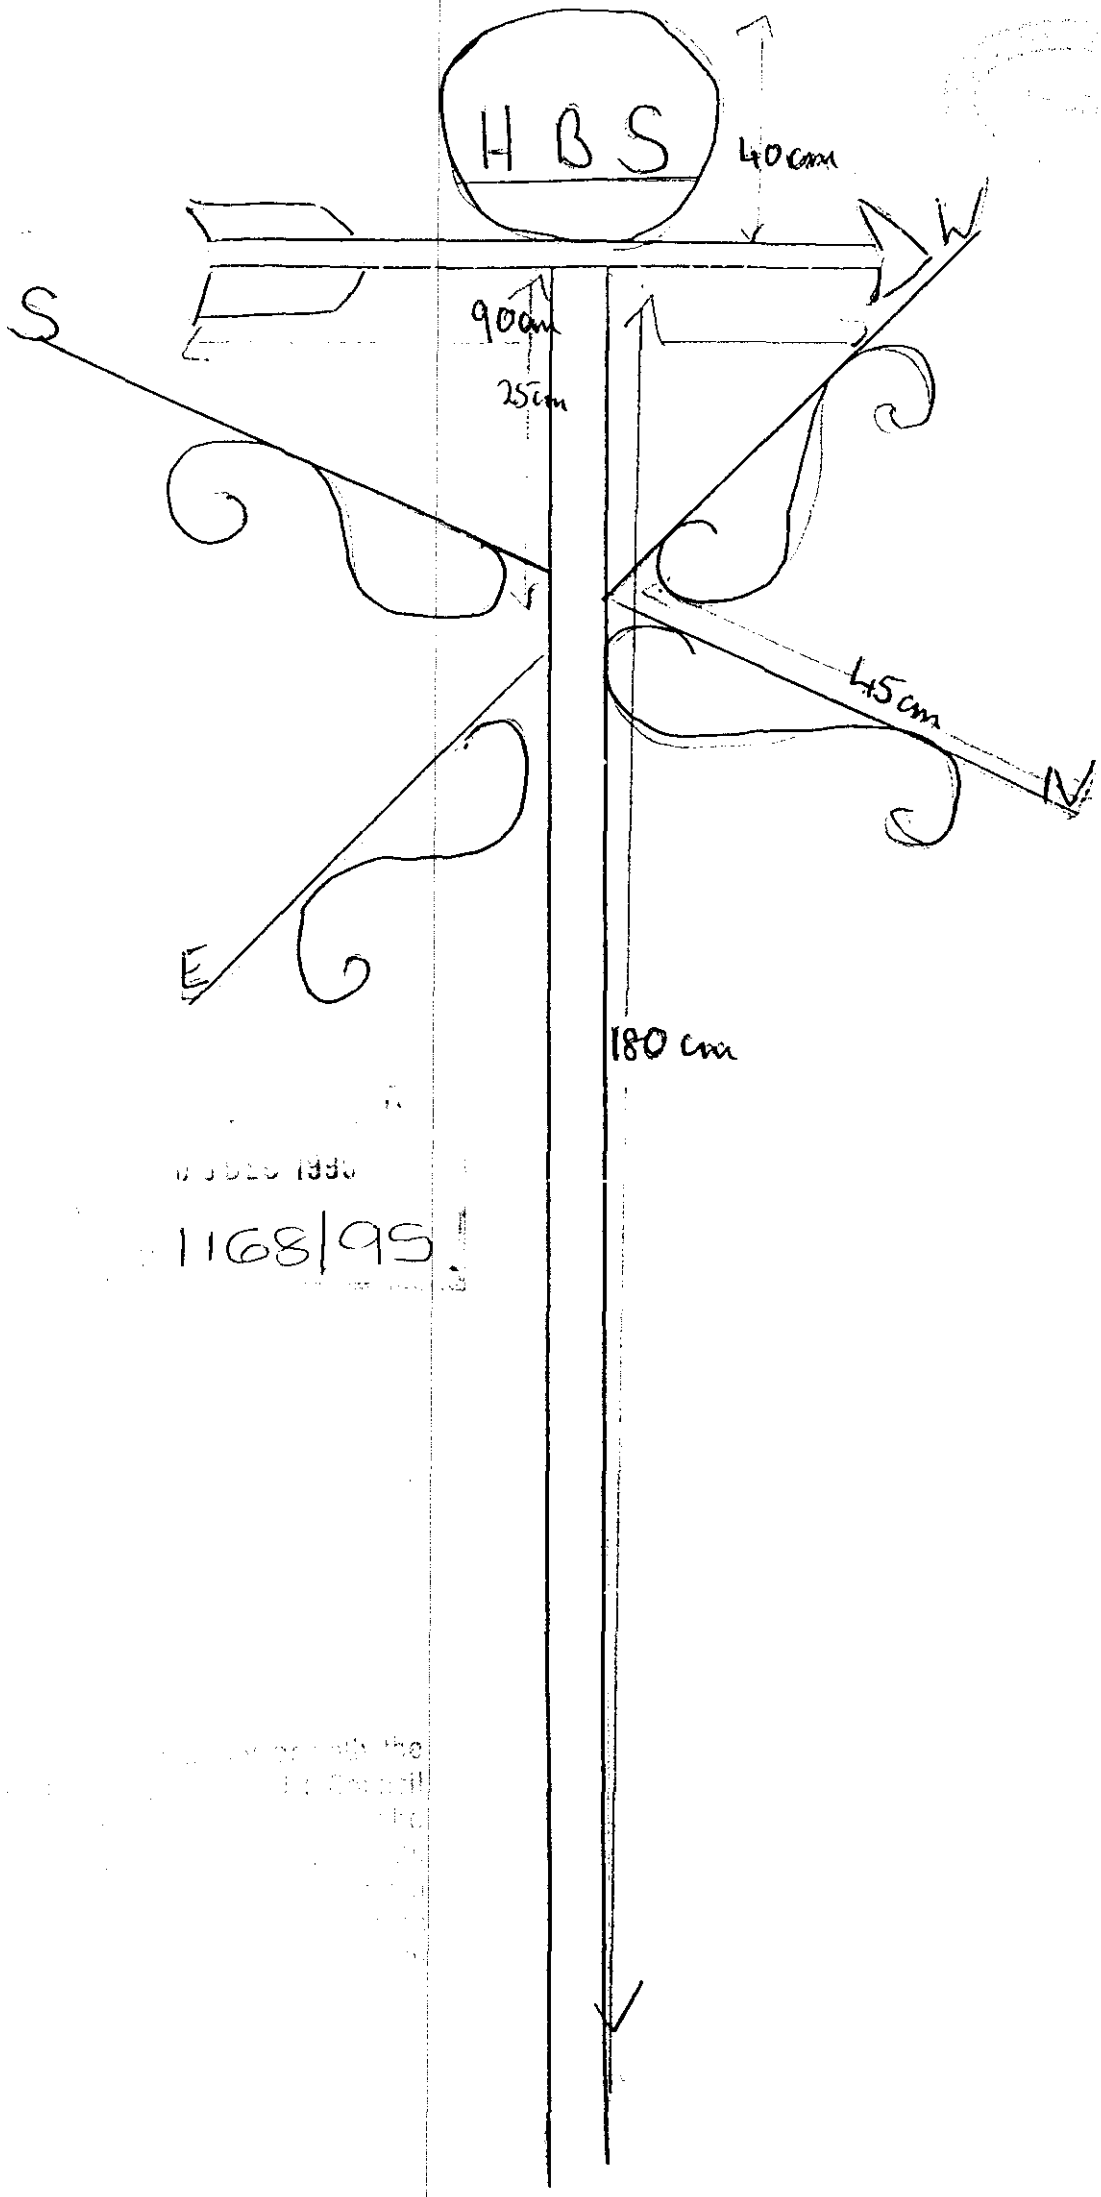

Fixing - brackets.

Many thanks
Yours sincerely

D. Jefferson
