To Whom it May Concern

Sense are pleased to be sponsoring the project at The Nationwide Produce Building, Northorns Lane, Holbeach, which will provide specialist support for eight individuals who are deafblind, have sensory impairments or complex needs enabling them to live in the community with support from Sense, as a highly specialist care provider. This project will meet identified gaps in current provision for this group of individuals in the community, in the region and further afield. It will assist with the wider transformation of services across the region. We are working with the Local Authority, the developer and Fairhome Housing to ensure that the property at Holbeach will be suitable for the future needs of deafblind people and that it will continue to meet the future care placement needs of commissioners in the area.

The Project fits with our strategy on modernising the housing offer for individuals who require a service from Sense and the strategic approach being taken by the Local

Authority on providing a modern accommodation offer across its care and support services. It has the added benefits of redeveloping an existing site and providing employment opportunities.

For these reasons, Sense is pleased to have been involved from the start of the project and believe that it will meet identified needs. We have been able to influence and agree the nature of the housing and care to be offered at the site of Nationwide Produce, Northorns Lane, Holbeach. We look forward to the accommodation and associated care support being established and providing a much needed and valued addition to our options for individuals who are deafblind, have sensory impairments or complex needs in the community.

Yours faithfully

Donna Barnes
