PATIO DOORS

INTRODUCTION

Patio Doors are an ideal way to improve your home and add value to it. We have an unrivalled range for you to choose from, in hardwood, softwood and PVC-U

All patio doors have safety glass, and all tempered safety glass used in our patio doors complies with BS 6206:1981 Class A.

All patio doors are factory glazed in accordance with NHBC Chapter 6.7 requirements.

Security Features

All John Carr sliding patio doors have:

- Minimum 4-point locking.
- Five pinned tumbler mechanism.
- Key lockable from the inside or outside.
- Anti-lift devices.

Hinged patio doors have 3 fixing points with further security options.

Ventilators are fitted to all patio doorsets.

Matching Packer Sets

Where brickwork openings require packing, matching packer sets are available to suit various standard and non-standard applications.

30 year guarantee against rot and fungal attack on all external timber components.

10 year guarantee against manufacturing defects.

IMPORTANT
Please be aware of the relevant requirements of Building Regulation Part 'L' 2002 regarding energy efficiency when ordering patio doors. For your guidance details of the regulation are included in our window section. This regulation also applies to entrance doors and patio doors. Patio doors with a 'U' value of 2.0W/m²K will meet the requirement using the elemental method of calculation.
