Application H10-0915-18
Location PRINCES LIMITED BRIDGE ROAD LONG SUTTON PE12 9EQ
Proposal Demolition of existing buildings and erection of a new Raw Materials Warehouse and Ingredient Processing Centre (Use Class B2/B8)

Name Jacqui Rands
Address Environmental Protection SHDC

Date Submitted 16-10-18
For/Against Comments

I write with reference to the Air Quality Assessment- Raw Material Handling and Kitchen facility - prepared by REC Ltd (Report reference AQ105933-1R2, dated September 2018) which was commissioned by the applicant, Princes Ltd.

Whilst it is acknowledged that it would not alter the outcome of the report, it is wondered why the results given in Section 4.2 Air Quality Monitoring refer to the most recent year as being 2015. Why have 2016 and 2017 results not been included as the report prepared in September 2018.

I concur with the conclusions of the report that:

1. The implementation of the dust mitigation measures detailed in Table 20 (pages 22-24) will endeavour to ensure the potential air quality impacts from dust generated by any demolition, earthworks, construction and trackout activities are not significant.
2. The potential operational Air Quality impacts from the proposed development associated with the additional vehicle trips that will be generated are considered to be not significant.
