Morning Julie,

Sorry if this has caused confusion, here is an extract from the ITP, dated December 2023. Our charges are updated on 1st April each year –

Please Note: Payment must be received prior to you requesting your connection(s). If your company holds a DART account with Anglian Water, these connection charges will be added to your DART account once the work has been completed.

Costs quoted are valid for 6 months. Please note our charges are normally reviewed annually and any changes take effect from the 1st April each year.

The attached ITP was quoted for connections being made in 2023/24 but as they were connected after 1st April 2024 they will be charged the prices for 2024/25 connections, which was £616.00.

I hope I've explained that ok but please get back if you need anything else.

Many thanks,

Lyndsay Smitton
