South Holland District Council hereby give notice that PERMISSION HAS BEEN GRANTED for the development in accordance with the application and plans submitted, subject to any condition(s) set out below:

1 Application for approval of reserved matters must be made not later than three years beginning with the date of this permission, and the development must be begun not later than whichever is the later of the following dates:
(a) the expiration of five years from the date of this permission,
(b) the expiration of two years from the final approval of reserved matters or in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: As required by Section 92 of the Town and Country Planning Act 1990.

2 The following matters are reserved for subsequent approval by the Local Planning Authority, and no development to which they relate shall be carried out until these matters have been approved, viz:
(1) Detailed drawings to a scale of not less than 1/100 showing the siting design and external appearance of the buildings, including particulars of the materials to be used for external walls and roofs;

Reason: The application was submitted in outline only.

3 The gradient of the vehicular access shall not be steeper than 1:20 for a distance of 6 metres from the nearside edge of the carriageway of Wisbech Road, and thereafter not steeper than 1:10.

Reason: To ensure the provision of adequate facilities for safe ingress and egress of vehicles calling at the site in the interests of road safety

4 Before the access is commenced to be used, provision shall be made within the site to the satisfaction of the Local Planning Authority for a motor vehicle to turn to enable it to enter and leave the highway in forward gear.

BRIAN SMITH Dip TP MRTPI Director of Planning & Building Control Services

Planning & Building Control Department, Council Offices, Priory Road, Spalding, Lincolnshire. PE11 2XE (Tel: 0775 761161)

Reason: To enable vehicles to enter and leave the highway in forward gear in the interests of road safety.

5 The following steps shall be taken to safeguard each preserved tree during construction, namely, the tree shall be protected during construction work by chestnut pole or similar fences 1.5 metres high to the satisfaction of the Local Planning Authority. The fencing to be provided to the tree shall be erected at a minimum distance from the trunk equal to the crown spread of the tree; (ii) no site huts shall be erected within the crown spread of the tree; (iii) no materials, including fuels, shall be stored within the crown spread of the tree and no development shall be carried out under it. (iv) no burning of goods shall take place within 3 metres of the crown of the tree; (v) no services shall be routed under the crown spread of the tree.

Reason: To protect the preserved trees in the interests of amenity.

6 The access drive shall be constructed of permeable material in accordance with details to be submitted to and approved by the Local Planning Authority.

Reason: To minimise damage to the roots of perserved trees.

The applicant is advised that siting and means of access have been approved at this stage and are not reserved for subsequent approval.

The applicant is advised that this approval does not authorise any works to trees within the site preserved under the Long Sutton Tree Preservation Order 19. The Local Planning Authority would not, however, object to an application to fell the trees indicated on the plan attached to the decision notice.

The design of the dwelling should preserve or enhance the setting of 6 Wisbech Road (Holme Hurst) which is a Grade II Listed Building.

BEJO ZADEN BV, of Warmenhuizen, The Netherlands, Hereby Give Notice that they have applied to the Secretary of State for a consent to release genetically modified organisms under Section 111 of the Environmental Protection Act 1990 at Elsoms Seeds trials.

The organisms concerned are chicory plants genetically modified with genes for male sterility, kanamycin resistance and gluphosinate ammonium (Basta) resistance. With this new system of male sterility Bejo Zaden BV is able to produce parent lines of red hearted and green hearted chicory that are unable to self pollinate, because of the lack of pollen production. Pollination of these male sterile lines with fertile lines results in 100% pure hybrid seeds without any inbreds. This offers Bejo Zaden BV and Elsoms Seeds Ltd the opportunity to provide growers of red hearted and green hearted chicory with pure seed quality with high germination, high yield, improved uniformity and quality.

The purpose of the release is to evaluate the suitability of new experimental hybrids for the UK market. Special attention is given to yield and uniformity.

The release will take place at Elsoms Seeds Ltd trial field on Pinchbeck Marsh near Spalding, OS grid reference 263261, Lincolnshire, between June 1994 and November 1994.
