Protected tree work form

Please complete in block capitals

For office use only: Reference no:

Date Registered:

Your name and address (or Client's details if completed by an agent)	Name and Address of Agent If the form is completed by an agent.	Please tell us the location of the tree(s).
T Machin The Cedars, 35 High Street Long Sutton PE12 9DB Telephone number 07576 655851		Front and rear garden, 35 High Street Long Sutton

I give six weeks notice that I intend to carry out the work that I have described below to tree(s) that are not covered by a Tree Preservation Order but situated within a

Conservation Area. Please give the name of the Conservation Area here:- **LONG SUTTON**

Please draw a sketch plan to show the lo0cation of the tree(s), either on the back of this form or on a separate sheet, then tell us...

Species of Tree	Tree ref. number or position on site	Details of the work you propose	Why you think this work is necessary	Proposed replacement tree(s)*
n/k Sycamores.	42a /43a	Remove both trees.	Both trees too close to trunk of large Leylandii (43) and are crowding the tree.	n/a
Salix spp (Cork screw)	47	Remove dropped bough over drive	Storm damage in January	n/a
Salix spp J	50	Remove broken bough over front lawn	Storm damage in January	n/a
Fraxinus spp (Subject to notification H11-0204-15).	57	Crown reduction 70% (Works carried out by 9/4/2015).	Prevent potential toppling caused by fungal attack	n/a
Leylandii	65	Remove Tree	Improve outlook, reduce shadowing and improve soil moisture content	3 no half standard deciduous trees to front garden tba, or a further Blue Atlas Cedar 'Cedrus atlantica 'Glauca'. or other cedar species.

(separate sheets can be attached if more room is needed)

* If you want to cut down a tree we will usually require you to replace it. Normally we will ask you to plant a young tree (at least 2.5 metres high) of the same species that you have cut down, as near to where the original tree was located as is practicable. Sometimes a comparable species may be allowed instead of the same species. Please give details of the tree(s) you would like to plant as a replacement.

In this instance:
* Crown reduction 30% means to reduce height by 30% and prune circumference to balance.

SOUTH HOLLAND DISTRICT COUNCIL

Diane Fairchild Fenton
Tree Preservation Officer

SOUTH HOLLAND DISTRICT COUNCIL

Other than very minor works, ideally, pruning of sycamores should take place in late summer or early autumn. All pruning works to sycamores should be completed by mid-January to avoid problems of sap bleed.

Other than the removal of dead wood lime trees should preferably be pruned in late July and August or alternatively in the autumn months. Avoid pruning from the end of January onwards, as the bleeding of sap may be a problem.

In this case the duty of the landowner is to plant another tree, of an appropriate size and species, at the same place and as soon as reasonably possible.

It is recommended that the apple (Malus domestica) identified as 18 is replaced with a further apple near the rear boundary, the large elderberry (Sambucus spp.)identified as 34, by a species of conifer likely to be a cedar, the trees to be at least 1.5 metres high on planting, to be planted as near as reasonably practicable to the position of the original trees within a period of twelve months.

The large cypress identified as 65 to be removed, appears healthy, and could not be classified as in the dead, dying or dangerous category. There is therefore no requirement under Conservation Area legislation to plant a replacement.
Replacements proposed by the applicant would be welcomed.

Please inform the Local Planning Authority as soon as replanting has taken place and indicate the position of the replacement trees. Section 207 of the Town and Country Planning Act 1990 empowers this Authority to issue a Notice formally requiring replacement trees to be planted.

Under the Wildlife and Countryside Act 1981 (as amended) all birds, their nests and eggs are protected by law and it is an offence to damage or destroy the nest of any wild bird while it is in use or being built. In the event of query please contact Natural England at their Lincoln office on 03000 603900.

Bats are protected species under the Wildlife and Countryside Act 1981 (as amended) and in the event that bats are living in any cavities in the tree(s), or if they are discovered while the works are taking place, please inform Natural England at their Lincoln office on 03000 603900 before works proceed.

Yours faithfully,

D.M. Fairchild Yeaton

Works to Trees in a Conservation Area

Dear Sir/madam,

REFERENCE: **H11-0203-15**

DESCRIPTION: Works to trees in the grounds of The Cedars, 35 High Street, Long Sutton, which are within the Conservation Area.
Please refer to the attached schedule of works as received with the notification form and as amended following site visit of 9.4.2015, also the attached plan to show the location of the trees.

LOCATION: Cedars 35 High Street Long Sutton Spalding

South Holland District Council has considered the proposal and has no objections, subject to any recommendation set out below;

1 That the proposed work is carried out within two years of the date of this letter of 'No Objection'.

2 Work is to be carried out in accordance with BSI 3998 : 2010, 'Recommendations for Tree Work'.

3 The resulting stumps of any trees to be removed should be ground out/removed to at least 300mm below ground level to help reduce the risk of the stumps harbouring decay fungi which could infect nearby trees.

Please Note

Notes:

The necessary consent of all other interested parties should be obtained before the works proceed.

The consent of the Local Planning Authority is not required before the pruning of any tree cultivated for the production of fruit, as long as the work is carried out in accordance with good horticultural practice.
