I can confirm that the written scheme of archaeological investigation (WSI) meets the requirements of this office in respect of Condition 3 of permission H11-0041-21.

We can therefore recommend that the local planning authority could now discharge Condition 3.

We look forward to the archaeological work taking place. The developer should provide due notification of their intention to start the archaeological work (required by Condition 4) and ensure that appropriate reporting and archiving take place in accordance with this WSI following the completion of the fieldwork on site.
