 Appendix E: Local Facilities Plan
 Appendix F: 2011 Census Journey to Work data

Executive Summary

This Framework Residential Travel Plan (FRTTP) is prepared in support of a planning application for a residential development comprising approximately 200 dwellings.

The FRTTP is based on Lincolnshire County Councils Local Transport Plan 2013/14-2022/23 and sets out the background transportation issues relating to the availability of public transport, and other sustainable transport modes for residents. The FRTTP will be developed to a detailed Residential Travel Plan once the Site has received consent for planning.

Key issues addressed in the FRTTP are to:

- Encourage walking and cycling to the village centre facilities
- To encourage non-car journeys to places of employment, including to Kings Lynn and beyond
- Maximisation of walking, cycling, and use of public transport

The Site is moderately served by public transport to Kings Lynn, Wisbech and Spalding.

The Site will include pedestrian accesses linking the Site to the existing walking and cycling routes into the village centre.

Review of 2011 National Census data indicates that for Long Sutton indicates that the majority of journey to work travel is currently by private vehicle, with these substantially single occupancy journeys.

The FRTTP identifies a series of initiatives to encourage a modal shift from private vehicle-based journeys, and in particular journeys to work, to more sustainable transport modes.

Initiatives proposed for the development include:

- Car sharing
- Improved bus services
- Multi-modal voucher scheme
- Car Club
- Electric Car Charging Infra-structure

A Residential Travel Plan Coordinator will be appointed with responsible for managing and coordinating the Travel Plan. Actions will include undertaking baseline surveys, monitoring and information dissemination, resident awareness campaigns, reviewing targets, and provision of Welcome Packs to residents.

The Travel Plan Coordinator will review targets and monitoring results, and liaise with Lincolnshire County Council Transport Plan officer. Targets may be revised, and new initiatives introduced if it is considered that additional measures are necessary to improve sustainable transport usage.

1 Introduction

- 1.1 BHA Consulting (BHA) has been instructed by Templeman's to undertake a Travel Plan for the development on land off Seagate Road, Long Sutton to be referred hereafter as 'the Site'.
- 1.2 The application comprises an application for approximately 200 residential dwellings, The Development Plans are shown at **Appendix A**.
- 1.3 The Local Planning Authority is South Holland, and the local Highway Authority (LHA) is Lincolnshire County Council.

Travel Plan Overview

- 1.4 The purpose of a Residential Travel Plan (RTP) is to put in place the necessary management tools to enable residents to make informed decisions about their travel, mitigating the impacts on the environment. The RTP sets out strategies for encouraging use of sustainable transport modes, and for monitoring changes in travel patterns.
- 1.5 This Framework Residential Travel Plan (F RTP) sets out an initial strategy that will be further developed to a full Residential Travel Plan at the detailed planning application stage.
- 1.6 This F RTP provides the key information relating to the development, and outlines mitigation methods for the development. The F RTP is considered appropriate for the application in accordance with Figure 4.2 of the Department for Transport (DfT) guidance. The F RTP plan sets initial targets based on Baseline Conditions.
- 1.7 The Framework Residential Travel Plan is prepared in accordance with:
 - National Planning Policy Guidance (Paragraph: 009Reference ID: 42-009-20140306)
 - DfT: Good Practice guidelines: Delivering travel plans through the planning process
 - Lincolnshire County Councils Local Transport Plan 2013/14-2022/23

2 Travel Plan Aims & Objectives

2.1 Key issues to be addressed in relation to residential occupants are:

- To encourage walking and cycling to village centre facilities. These amenities and services include surgery, shops and leisure facilities. The local primary school is Long Sutton Primary School and the high school Peele Community College.
- To encourage non-car journeys to places of employment, it is noted that due to the rural nature of South Holland the majority of residential journeys will be to destinations beyond the village.
- To achieve objectives that are SMART i.e Specific – Measurable – Achievable – Realistic – Timed.
- To encourage reduction in car ownership through the use of car sharing
- Maximisation of use of public transport, cycling & walking

3 Site Accessibility

- 3.1 The Site is located towards the south eastern edge of the village with existing development to the north, west, and east. The primary school is located to the north west of the Site off Dick Turpin Way approximately 1.2km away and the high school approximately 2km away off Little London. The existing facilities within close proximity to the site are very good and there is an existing pedestrian route linking the site with the main village area. The site location is illustrated in Figure 3.1.
- 3.2 The Site is in close proximity to existing employment areas including Kings Lynn, Wisbech & Spalding, with Peterborough and Boston slightly further afield, providing a wide range of employment opportunities.

Figure 3.1: Site Location Plan

Walking & Cycling Routes

- 3.3 The Pedestrian and Cycle Accessibility Plans are included at **Appendix B**. The Pedestrian Accessibility Plan shows that many of village facilities are within 1km of the Site and the local convenience store within 100m, these distances being considered as acceptable walking times. Walking routes to bus stops and other facilities are on formal footpaths. The primary school is located to the north west of the Site off Dick Turpin Way approximately 1.2km away and the high school approximately 2km away off Little London. There are no currently dedicated cycle lanes within the vicinity of the Site. There are no Regional or National Cycle Network routes within five miles of the village. The Cycling Accessibility Plan shows that the whole of the village is within a 2.0km radius of the Site.

Local Highway Network

- 3.4 The local Highway network is illustrated on the plan in **Appendix C**. Long Sutton is served primarily by the A17 & A1101 providing links to Kings Lynn, Wisbech and Spalding. The principal roads linking the centre of Long Sutton with the A17 & A1101 are the B1359 and the B1390. The B1390 runs in a north-south direction through the centre of the village linking with the A17 to the south. The B1359 runs generally in a east-west direction again through the village centre linking to the A1101 & A17 to the east and the A17 again to the west. Traffic to more distant destinations will principally be via the same routes to reach other major A roads.
- 3.5 Major employment centres in the area are Kings Lynn, Wisbech, Spalding and Peterborough which is further afield. Kings Lynn and Spalding are both served by a regular bus service

Public Transport

- 3.6 Long Sutton is served by several bus stops located either side of Bridge Road adjacent to the Ship Inn, approximately 200m from the proposed development site with the stop on the Northern side of Bridge Road having a shelter. Bus services available are the 505 service operated by Stagecoach providing buses at 20 minute intervals Mondays to Saturdays during the day serving the main towns of Kings Lynn and Spalding, linking villages en-route. with fewer buses on Sundays approximately 60 minute intervals. Route 50 provides a very limited service of four buses per day to Wisbech. There are also two school services 115 serving Peele college from surrounding catchment villages and the NG01 serving Gleed School and Welland Road in Spalding. Bus transport details are provided at **Appendix D**.
- 3.7 There is a call-connect service which operates on a requirement basis in this area, pick up and set down are at designated locations in each village or town. Home pick ups and drop offs are also available for people who are unable to use conventional bus services due to age, disability or mobility impairment.
- 3.8 The nearest railway stations are at Kings Lynn approximately 13.5 miles to the east, which offers access to the rail network via the Cambridge line with good services each way daily and Spalding approximately 14.5 miles to the west which offers good links to Skegness and the rail network via Peterborough.

Local Facilities & Schools

- 3.8 The village is evenly distributed over a wide area with low density housing, the Site is located towards the south eastern edge of the village but is within close proximity to the main facilities. The village is well served with footways. The primary school off Dick Turpin Way is within close proximity to the site, The Peele Community College is a little further at approximately 2km however this is still within walking distance. Location of facilities are illustrated on the Local Facilities Plan is included in **Appendix E**. Other facilities within the village include:

- a. a general store located at the junction with Seagate Road and London Road and within 100m of the Site
- b. a public house on Bridge Road within close proximity to the Site
- c. The main village centre is approximately 1km away which houses several fast food outlets banks, post office, food store, petrol station, library, medical centre amongst others.
- d. Leisure Centre with sports facilities located adjacent to The Peele Community College approximately 2km from the site.

4 Residential Travel Plan – Key Issues

- 4.1 This section of the Report sets out the key transportation issues relating to the proposed development, and ambitions to mitigate these issues and encourage non-vehicle journeys, and barriers and issues relating to use of sustainable transport.
- 4.2 These ambitions will be developed through a detailed Residential Travel Plan should the application receive outline planning consent.
- 4.3 Guidance on walking and cycling stances is provided in CIHT publication 'Guidelines for providing Journeys on Foot' and summarised in Table 1, below. This table also sets out guidance on cycling distances based on average speeds of 18km/hr.

	Walking		Cycling	
	Distance (km)	Journey Time (mins)	Distance (km)	Journey Time (mins)
Desirable	0.5	6	2	6.7
Acceptable	1	11.9	5	16.7
Preferred Maximum	2	23.8	7.5	25

Table 1: Summary of guidelines for providing journeys on foot

- 4.4 Key issues to be addressed in relation to residential occupants are:
- To encourage walking and cycling to village centre facilities. These amenities and services include surgeries, shops, existing primary school, and leisure facilities.
 - To encourage non-car journeys to places of employment. It is noted that due to the rural nature of South Holland the majority of residential journeys to work will be to destinations beyond the village.
 - Maximisation of use of public transport, cycling, and walking.
- 4.5 The development is within between 100m and 2km walking distance of the majority of village amenities and services and consequently in accordance with Table 1 meets recognised walking distance criteria. Furthermore these facilities are within under 10 minutes cycling distance from all village facilities.
- 4.6 There are bus services (route 505 – generally 20 minute intervals) from Othello's Bakery which also stops outside the Ship Inn (approximately 200m from the proposed development) serving Kings Lynn and Spalding. This bus service also links to other local centres including Holbeach, Moulton, Terrington St Clements, and Clenchwarton.

There is also service route 50 also from Othellos Bakery but stopping outside the Ship Inn, serving Wisbech which is very limited providing only two services during the morning and two in the afternoon. And two school services route 115 serving Peels College from local surrounding catchment villages and route NG01 serving Gleed School and Welland Road in Spalding.

5 Baseline Travel Information

Journey-To-Work Analysis

- 5.1 An analysis of 2011 census data (see **Appendix F**) has been undertaken to consider current travel modes in the Long Sutton area. This analysis provides baseline data for future Travel Plan monitoring, and assessment of modal shift to sustainable travel.
- 5.2 2011 Census data summarised in Table 5.2 clearly demonstrates that the primary travel mode is single occupancy private vehicles, with very limited numbers of car sharing. Other travel modes have no significant current usage in terms of journeys to and from work.

	Main mode							
	Walk	Cycle	Car/van driver	Car/van passenger	Buses (local & non-local)	Rail	Other	All modes
Percentage	5.6	3.1	76.3	11.6	1.5	0.1	1.83	100

Table 5.2: 2011 Census data for Long Sutton 002, 008 Ward

- 5.3 Graphical representation of current travel modes for Long Sutton is provided in Figures 5.1 and available travel modes are:

- Car (driving)
- Car (passenger)
- Bus/coach – negligible usage
- Train – negligible usage
- Taxi– negligible usage
- Cycle– negligible usage
- Motorcycle/moped – negligible usage
- Foot – local use only

Figure 5.1 & 5.2: car (driving) to work

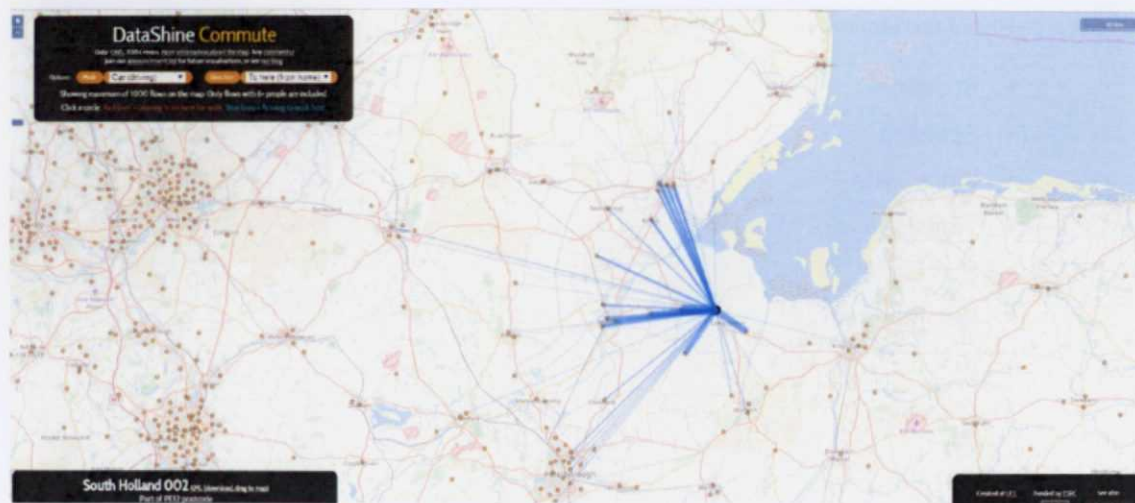

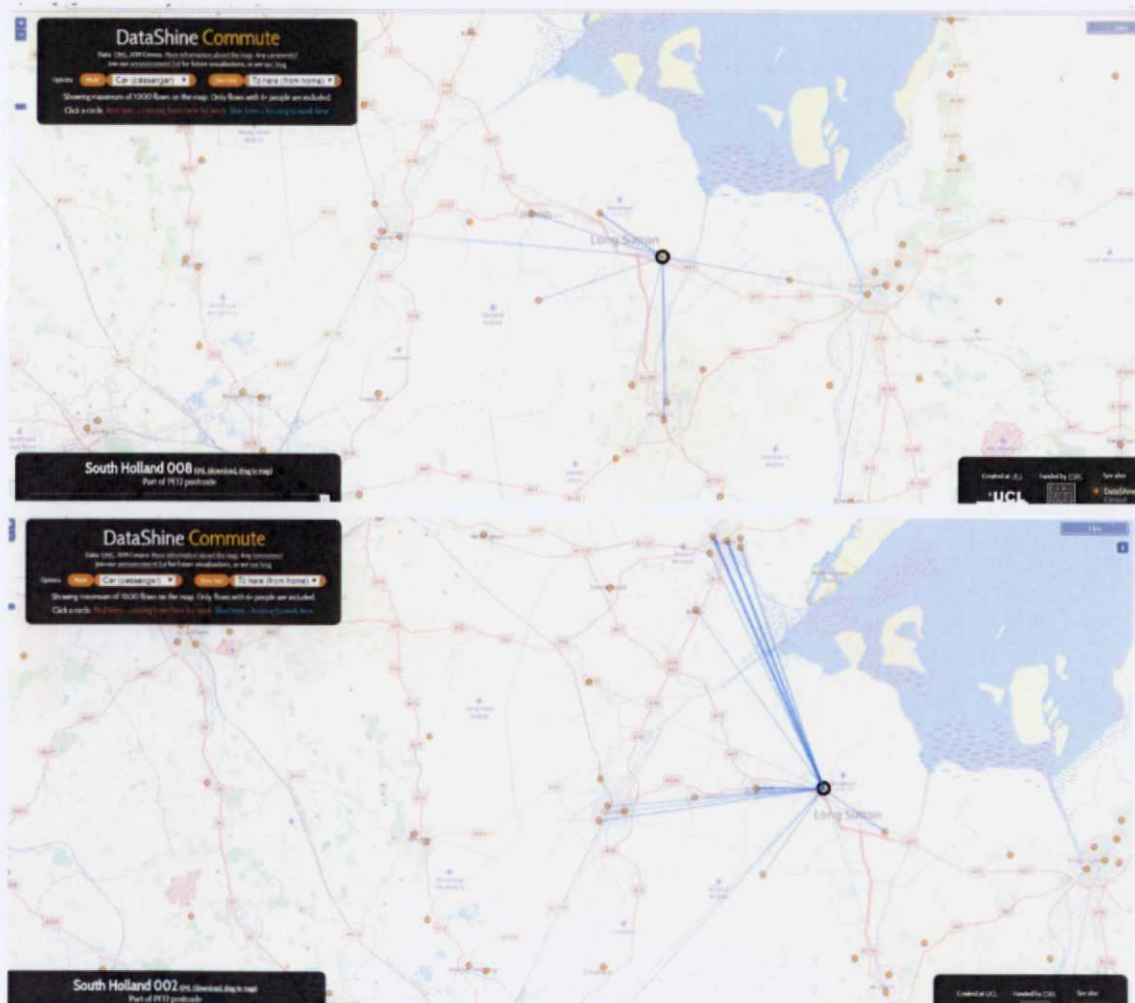

Figure 5.3 & 5.4: car (passenger)

5.4 Principal destinations are identified as:

- Boston
- Spalding
- Kings Lynn
- Wisbech
- Holbeach
- Peterborough
- Kirton
- Quadring

5.4 It is evident from this analysis that bus services are not meeting current requirements due to diversity of destinations, and journey timing. Travel distances are in excess of acceptable distances for modes such as cycling and walking.

6 Residential Travel Plan Initiatives

- 6.1 The ambitions of the Framework Residential Travel Plan will be met by a range of initiatives as described below. These initiatives will be developed into the Residential Travel Plan post-planning.
- 6.2 For the residential development the main ambitions of the F RTP will be achieved through the proximity and improvement of existing services, and by enhancements to walking and cycling connections. Information on public transport, and cycling will be provided to households in Welcome Packs.

Smarter Travel Choices

- 6.3 Smarter Travel Choices (SMC) is an initiative to promote awareness of sustainable journeys. SMC was developed by the Chartered Institution of Highways and Transportation. The objectives of SMC are encompassed in a family of techniques, the four main types being:
- Soft measures (e.g. setting up a car sharing scheme)
 - Promotion and awareness raising (e.g. personalised travel planning)
 - Sustainable transport infrastructure (e.g. new walking and cycling routes)
 - Monitoring and evaluation (e.g. measuring increased use of infrastructure)
- 6.4 Initiatives to be used for this Development are described in the following Sections.

Car Sharing

- 6.5 A car sharing initiative will be promoted with particular emphasis on journeys to Kings Lynn; Spalding; and Peterborough.
- 6.6 Improvements in car sharing are identified as a key achievable goal in reducing car journeys, particularly to the main local employment areas.

Bus Services

- 6.7 The principal bus service provider for Long Sutton is Stagecoach. Preliminary consultations with the company suggest there is currently low demand for bus services to destinations beyond the area. The company are willing to engage in discussions regarding increased services but that this would need to be in conjunction with Lincolnshire CC, and encompass the wider area beyond the proposed Development.
- 6.8 The TCP will work actively with residents to encourage bus use, and with bus operators to ensure frequency and timing suits travel demands.

Multi-Modal Voucher Scheme

- 6.9 The purpose of a Multi-modal voucher scheme is to encourage residents to either trial use of public transport (through a free voucher) or to use free vouchers to purchase cycles.
- 6.10 The Developer will underwrite the cost of the multi-modal voucher scheme for an agreed period of time. Multi-modal vouchers based on provision of a one month bus pass to Kings Lynn/Spalding with two vouchers issued to each dwelling unit. Vouchers to have a value of £84.50 based on current costs, to be adjusted according to future costs.

Car Club

- 6.11 A Car Club provides residents with access to a communal-use car available through an on-line booking system. Residents book the vehicle for a set period of time with the vehicle available at a dedicated parking bay. Potentially this vehicle could be an electric car, with charging facilities provided at a designated parking bay.
- 6.12 Within a development a large number of households will own more than one vehicle. The second (or more) vehicle may be used on an occasional basis. The benefit of a Car Club is that a vehicle is available for occasional users hence reducing the need for primary or second car ownership, and reducing overall numbers of vehicles on a development.

Electric Car Charging Infrastructure

- 6.13 The Development will include provision of electric vehicle charging points in all residential properties.

Travel Plan Coordinator

- 6.14 A Travel Plan Coordinator (TPC) will be appointed by the Developer to implement the RTP and to monitor the progress and achievements of the scheme. Success will ultimately be identified by achieving a marked change in transport modes, and by the engagement of residents in the Travel Plan and willingness to meet the RTP goals.
- 6.15 The TPC will be responsible for communicating the RTP to residents, along with regular news updates, monitoring results, and new promotions.
- 6.16 The TPC will be responsible for ongoing development of the RTP in consultation with local residents, and Lincolnshire CC.
- 6.17 The Developer will fund the RTP implementation and TPC for an eight year period or extended period subject to build and occupation rate, full details of costs and arrangements will be provided in the Residential Travel Plan prepared following receipt of planning consent. The TPC will be appointed from an appropriate consultancy at least six months prior to first occupancy.

Transport Initiatives For The Local Area

6.18 The Travel Plan will encourage residents to understand the benefits of sustainable transport options and to utilise improved public transport services and hence to reduce the impact of the development on the local highway network. The following initiatives will be undertaken to encourage participation:

- Information dissemination to residents in the Seagate Road area
- Inviting local residents to Travel Plan meetings
- Engaging with local Residents Association, and the Parish Council, to encourage understanding of the benefits of reductions in dependence on car based journeys

Remedial Measures

6.19 In the event that Travel Plan targets are not met the following remedial measures are available. Further remedial measures can also be developed by the Travel Plan Coordinator in consultation with LCC and residents.

- Re-issue of resident Welcome Packs
- Resident meetings and information dissemination
- Consultations with bus companies to review and alter bus service provision to meet resident travel requirements
- Consultations with the parish Council to promote understanding of the benefits of the Travel Plan.

Residential Travel Plan

6.20 The FRTP will be developed to a full Residential Travel Plan following receipt of planning consent. The full Residential Travel Plan will additionally address the following points:

- Development timetable
- Details for baseline survey
- Detailed action plan
- Example Travel survey details
- Travel Plan costs
- Internal road layout
- Full details of initiatives, costs, and programming
- Travel Plan marketing details
- Full details of the Welcome Pack
- Reporting and monitoring details
- Contact details for coordination with Lincolnshire County Council

7 Travel Plan Targets

- 7.1 The primary purpose of the Travel Plan is to increase awareness of sustainable travel options and to encourage use of alternative travel modes. This Framework Travel Plan provides preliminary targets and milestones to be used as a basis against which improvements in changes in use of sustainable travel modes can be assessed.
- 7.2 The Travel Plan implementation will be structured in the form of an Action Plan (see Table 7.1) that defines targets and milestones for the 5 year plan period, based on anticipated build and occupation rate. The Action Plan will be subject to annual review and the period covered by the Plan amended according to the review outcome if the build and occupation rate extends beyond 5 years.
- 7.3 The Action plan includes a Baseline Survey to be undertaken which will be utilised to redefine the 5 Year Targets in consultation with LCC.
- 7.4 Targets shall be SMART i.e. Specific – Measurable – Achievable – Realistic – Timed.

Action	Responsibility	Timescale
Appoint TPC - through TP Consultancy	Developer	6 months prior to 1 st occupancy
Implement TP	TPC	Prior to initial occupation
Produce Travel Information Packs	Developer and TPC	Prior to 1 st occupation
Install noticeboards	Developer	Prior to initial occupation
Carry out baseline survey	TPC	Within 3 months of 50 th dwelling occupation
Travel Plan monitoring	TPC	On 65% occupation
Submit baseline results and review to SCC for review	TPC	Within 3 months of issuing questionnaire to residents
Re-define targets	TPC	Within 3 months of completion of TP review
Re-issue questionnaires to residents	TPC	1, 3, and 5 years after the initial survey

Table 7.1: Action Plan

SMART Targets

- 7.5 Based on information contained in the Action Plan preliminary SMART targets for the Travel Plan have been set for the first five year plan period and based on 2011 Census baseline data. Preliminary targets are provided in Table 7.2 and will be reviewed with LCC Travel Plan officers

Mode	Baseline – end of Y1 (%)	Target – end of Y3 (%)	Target – end of Y5 (%)
Walking	5.6	6	8
Cycle	3.1	3.5	5.5
Car (single occupancy)	76.3	75.6	67.2
Car – with passenger	11.6	10.5	11.5
Public transport (bus)	1.5	2	5
Train	0.1	0.4	0.8
Others	1.83	2	2
Total	100	100	100

Table 7.2: 5 year SMART Targets

- 7.6 Plan implementation will be an ongoing process. The annual review may identify opportunities for raising SMART targets, or that targets are not being met. In consultation with LCC Travel Plan officers, and residents, the targets will be adjusted, and where necessary additional initiatives introduced. If targets are not met in the 5 year plan period the monitoring process will continue beyond 5 years.

8 Conclusions

- 8.1 This Framework Residential Travel Plan identifies current background travel information in relation to the proposed development at Seagate Road. The F RTP sets out a series of initiatives and targets to encourage residents to adopt sustainable methods of travel, and reduce reliance on less sustainable travel modes such as by single occupancy private vehicles.
- 8.2 The F RTP will be developed post-planning to a detailed Residential Travel Plan. A Travel Plan Coordinator will be appointed with responsibility to implement the Residential Travel Plan, monitor and review the targets, and disseminate information.
- 8.3 The RTP will cover an eight year period during which time the success of the plan will be reviewed by Lincolnshire County Council Travel Plan officer. Based on periodic reviews the plan period may be extended, or additional initiatives introduced, with the aim of achieving the required shift to sustainable travel modes.
