CASE OFFICER ASSESSMENT

Proposal

This is a full application seeking permission for the retrospective installation of an air source heat pump in the rear garden of 40a Woad Lane, Long Sutton.

Site Description

The site is located outside the defined settlement boundaries of Long Sutton as outlined in the South East Lincolnshire Local Plan, 2019 (SELLP). 40a Woad Lane is a chalet style bungalow made from red brickwork with a tiled roof and white uPVC windows and doors, it backs on to large open fields located off Roman Bank connecting to the Main Service Centre of Long Sutton.

History

H11-0107-91 - Erection of dwelling including details of means of access - Approved

H11-1091-93 - Erection of dwelling including details of means of access (Renewal of H11/0107/91) - Approved

H11-1066-96 - Erection of dwelling including means of access (renewal of application H11/1091/93) - Approved

H11-1014-99 - Erection of dwelling inc. means of access (renewal of H11/1066/96) - Approved

H11-1081-02 - Erection of dwelling, including means of access (renewal of outline application H11/1014/99) - Refused

H11-1307-02 - Erection of dwelling including means of access (Outline renewal H11/1014/99) - Approved

H11-1548-03 - Erection of chalet bungalow - Approved

H11-0315-04 - Details of materials for external walls (part Condition 2 of H11/1548/03) - Approved

Consultation Responses

No consultation responses received.

Evaluation

Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

In this case, the adopted South East Lincolnshire Local Plan 2011-2036, adopted March 2019, forms the development plan for the District, and is the basis for decision making in South Holland. The relevant development plan policies are detailed within the report above.

The policies and provisions set out in the National Planning Policy Framework (December 2023) are also a material consideration in the determination of planning applications, alongside adopted Supplementary Planning Documents.

Furthermore, where a Neighbourhood Plan has been adopted, this alongside the adopted Local Plan, forms part of the Development Plan for the District, and must be considered when assessing development proposals. In this instance, no relevant neighbourhood plans have been adopted.

Planning Considerations

Layout, Design and Consideration of the Character and Appearance of the Area

Section 12 of the National Planning Policy Framework (December 2023) specifically relates to 'Achieving well-designed and beautiful places' and details that the "creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process should achieve" and as such, it is generally accepted that good design plays a key role towards sustainable development.

Paragraph 135, contained within Section 12 of the National Planning Policy Framework (December 2023), states that new development should function well and add to the overall quality of the area (including beyond the short term) and should be visually attractive as a result of good architecture and appropriate landscaping. This goes on to establish that it is important that new development should be of the highest quality to enhance and reinforce good design characteristics, and that decisions must have regard towards the impact that the proposed development would have on local character and history, including the surrounding built environment and landscape setting such as topography, street patterns, building lines, boundary treatment and through scale and massing.

Development proposals should also ensure that developments create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations.

Likewise, Policy 2 of the South East Lincolnshire Local Plan outlines sustainable development

considerations for development proposals, providing a framework for an operational policy to be used in assessing the sustainable development attributes of all development proposals. Furthermore, Policy 3 accords with the provisions of Section 12 of the National Planning Policy Framework, in that it requires development to comprise good design; identifying issues that should be considered when preparing schemes so that development sits comfortably with, and adds positively to, its historically-designated or undesignated townscape or landscape surroundings.

These policies accord with the provisions of the National Planning Policy Framework and require that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

Proposals for new development would therefore require the aforementioned considerations to be adequately assessed and designed, including the siting, design and scale to be respectful of surrounding development and ensure that the character of the area is not compromised.

The air source heat pump is located on the ground of the rear elevation of the dwelling, the overall height will be 550mm with a width of 765mm and a depth of 285mm. The location of the air source heat pump is well screened and therefore is not visible from the roadside or neighbouring dwellings. The size and location ensures that the proposed would not cause an unacceptable impact to the character or appearance of the area.

Taking account of the design, scale and nature of the development, as detailed above, the proposal is considered to be acceptable. The proposal would not cause an adverse impact to the character or appearance of the area and would therefore be in accordance with policies 2 and 3 of the South East Lincolnshire Local Plan and Section 12 of the National Planning Policy Framework (December 2023).

Impact on Residential Amenity/Land Users

Paragraph 135 of the National Planning Policy Framework (December 2023) states that development should create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users; and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience.

Policies 2 and 3 of South East Lincolnshire Local Plan (2019) sets out that residential amenity and the relationship to existing development and land uses is a main consideration when making planning decisions.

The LPA does not considered there to be any negative impact upon residential amenity caused by this development, the application proposes no external dimensional alterations nor addition of any new windows and therefore, there is no increased risk of overlooking or overshadowing. The proposed heat pump may cause some noise generation, however this is on a domestic scale only and is well screened by a mature hedge which sites the adjacent neighbour and thus should provide some protection. The risk of undue noise pollution id deemed extremely minute and is not significant enough to recommend refusal. In any case, the air source heat pump meets all the requirements under the General Permitted Development Order, 2015 but fails to meet one condition requiring it to only be used for heating purposes as this one operates for both hot and cold and therefore if the cold feature was removed than it would not necessarily even require planning permission.

As detailed above, the scale and design of the proposal is considered to be such that there would be no significant or unacceptable impact on the residential amenities of the occupiers of adjacent properties or land users, when also taking account of the conditions recommended. As such, the proposal is considered to accord with the provisions of the Section 12 of the National Planning Policy Framework (December 2023), and Policies 2 and 3 of the Local Plan.

Planning Balance

As detailed above, Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

The proposal represents appropriate development outside the defined settlement boundary. The development hereby proposed does not materially harm the character or appearance of the locality,

or amenity of nearby residents, whilst conforming with the South East Lincolnshire Local Plan and the provisions of the National Planning policy Framework when viewed as a whole.

In this instance, there are no material considerations that weigh against the proposal and as such, the planning balance is in favour of the development.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Taking the above considerations into account, the proposal is considered to be in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan (SELLP) (2019), along with the identified sections contained within the National Planning Policy Framework (NPFF) (December 2023). The are no significant factors in this case that indicate against the proposal and outweigh the consideration in favour of the proposal and the policies referred to above.

Recommendation

Based on the assessment detailed above, it is recommended that the proposal should be approved under Delegated Authority.
