Mr Woollard
28 Market Street
Long Sutton
Lincolnshire
PE12 9DD

Dear Mr Woollard

Please find below a description of the pool as well as the associated plans.

Pool

The pool is our insulated polypropylene Propa-Pool which will be 6m x 3m External (5.8m x 3.8m internal) x 1.2m wall depth (internal). This is a bespoke product and therefore everything will be made to order. The pool will include all the skimmers and nozzles and pump and filter according to latest specification given by ISPE. The pool has a 10 year guarantee and is expected to last for 50 years plus. The shell is made from 5mm polypropylene whilst the steps will be made from 8-12mm polypropylene. The pool will need to be dropped in on a concrete base and balanced filled with 300mm of concrete all the way around the pool.

If you have any other questions please feel free to drop me an email or give me a call

Yours Sincerely
Dominic Paine
