David, further to our telephone conversation of Monday 7 September 15, regarding the above application. I have spoken to my client and although the trees do not have a Tree Preservation Order on them we are keen to mitigate any disturbance to the willow trees on the land adjacent to the site. My client is therefore happy to mini-pile the foundations to the building closest to the trees to minimise any potential disturbance to the tree roots.

We hope this will alleviate any concerns you may have on the site. I have copied Diane Fairchild into the email.

My client would like confirmation that a decision will be issued by the determination date or very soon after.

Many thanks,

Alasdair McFarlane
