Dear David,

Further to the comments received by yourselves from Lincolnshire Wildlife Trust with regard to the specified meadow seed mix we have contacted Naturescape (as suggested by the LWT) who have recommended the use of their N5 Long Season Meadow Mixture.

Please find attached therefore the Landscape Tree Planting and Maintenance Statements revised to include the Naturescape NW5 seed mix.

This mix offers greater diversity and although it still includes Trifolium pretense and Achillea millefolium they are at relatively small percentages (2.5% and 3% respectively) of the overall mix and we hope are therefore acceptable to LWT.

Regards,

Bob

Subject: Applications H11-0770-11 and H11-0771-11. Revisions to bunding, landscaping, etc, Solar Parks, The Long Sutton Butterfly Park, Little London

Dear Bob,

Further to my earlier email I have now examined the applications more thoroughly.

It is noted that the Wildlife Trust has raised issues about the meadow to be established under the solar panels (copy of response attached). To enable the applications to be acceptable from this point of view it is considered that their suggestions should be taken on board.

I therefore look forward to revised details in due course.

Regards.

David Gedney.
