I write to confirm that I have no objections to this proposal from a built heritage conservation perspective. The site is in open countryside, where the only nearby heritage asset is the Grade II listed Seagate Hall & the associated Stable Block, situated some ~55m from the closest position of the development site. The only substantive element of the proposal is the erection of a short fence. As a result, the minor nature of the alteration to the site and the distance from the heritage asset lead to me advise that this proposal would bear no material impact upon the local historic environment.
