to establish specific conditions before they can be used as evidence. The strategy is praised as a means of gathering information concerning claims and support to enable full specification of the case, a strategy that is not always followed. The works will be not as appreciated by historians or by the CBR community as they are by the CBR community. The works will be not as appreciated by historians or by the CBR community as they are by the CBR community. The works will be not as appreciated by historians or by the CBR community as they are by the CBR community.
