South Holland District Council has considered the proposal and has no objections, subject to any recommendation set out below;

1 That the proposed work is carried out within two years of the date of this letter of 'No

Objection'.

2 Work is to be carried out in accordance with BSI 3998 : 2010, 'Recommendations for Tree Work'.

Notes:

The necessary consent of all other interested parties should be obtained before the works proceed.

Walnuts should only be pruned in late July and early August when they are in full leaf. If the tree is holding its leaves well this period may be extended into September and exceptionally into October. If pruned at other times of the year walnuts can bleed sap profusely which may harm the tree.

Avoid pruning horse chestnuts in the spring months directly prior to and immediately after bud opening as bleeding of sap from pruning cuts may be a problem. Ideally prune between leaf fall and February.

Under the Wildlife and Countryside Act 1981 (as amended) all birds, their nests and eggs are protected by law and it is an offence to damage or destroy the nest of any wild bird while it is in use or being built. In the event of query please contact Natural England on Tel: 03000 603900.

Bats are protected species under the Wildlife and Countryside Act 1981 (as amended) and in the event that bats are living in any cavities in the tree(s), or if they are discovered while the works are taking place, please inform Natural England on Tel: 03000 603900 before works proceed.
